PART IB.

ORDERS BY THE LIEUT.-GOVERNOR OF BENGAL

MUNICIPAL AND LOCAL.

NOTIFICATIONS.

No. 440M.—The 27th January 1906.—It is hereby notified for general information that the Lieutenant-Governor intends, in the exercise of the power vested in the Local Government by section 221 of the Bengal Municipal Act, III of 1884, and in accordance with the recommendation of the Commissioners of the Bhatpara Municipality, in the district of 24-Parganas, made at a meeting, to extend the provisions of sections 287-88, 302 and 303 of the said Act to the above Municipality, unless good reasons are shown to the contrary within one month from the date of the publication of this notification within the Municipality.

No. 442L.S.-G.—The 30th January 1906.—It is hereby notified that the Lieutenant-Governor is pleased to approve the election by the members of the Murshidabad Sadar Local Board, in the district of Murshidabad, under section 25 of the Bengal Local Self-Government Act, III of 1885, of Babu Charu Krishna Masumdar to be their Chairman.

No. 444L.S.-G.—The 30th January 1906.—It is hereby notified that the Lieutenant-Governor is pleased to approve the election by the members of the Murshidabad Kandi Local Board, in the district of Murshidabad, under section 25 of the Bengal Local Self-Government Act, III of 1885, of Babu Mohim Chandra Ghosh to be their Chairman.

No. 446L.S.-G.—The 30th January 1906.—It is hereby notified that the Lieutenant-Governor is pleased to approve the election by the members of the Murshidabad Jangipur Local Board, in the district of Murshidabad, under section 25 of the Bengal Local Self-Government Act, III of 1885, of Babu Charu Chandra Chatterjee to be their Chairman.

No. 448M.—The 29th January 1906.—In exercise of the power conferred on the Local Government by section 53, clause 3, of the Calcutta Hackney Carriage Act, II of 1891, the Lieutenant-Governor is pleased to confirm the following by-laws which have been framed by the Commissioners of the Bhagalpur Municipality, in the district of Bhagalpur, under clause 1 of the said section:—

(a)—*First class.*

1. First class Hackney Carriage licenses shall only be granted for comfortable, roomy, clean, easy running vehicles of a superior description in all respects to second class carriages. They may be of any approved pattern, such as broughams, landaus, phaetons, etc.;—each carriage must have a thoroughly good pair of horses and lamps.

(b)—*Second class.*

1. No carriage shall receive a second class license unless it be in a thoroughly fit condition.

2. If it be of the kind known as "Palki Gharry" or "Brownberry," it shall conform to the following dimensions :—

			Inches.
Breadth of carriage inside	36
Depth of seat inside	18
Width of well of carriage between cushions	24
Height of roof from seat	40

The fore and aft blinds must have fixed *venetians*, the rest to be moveable with proper attachments to raise and lower them, and a small steel spring must be attached to each frame to prevent rolling or noise. The doors must swing on proper hinges and open down to the floor, and the locking bolts and the handles are to be securely fitted.

The roof of the carriage is to have an outer covering of zinc sheeting and the inner portion is to be of polished teak-wood. The cushions and backs to be covered with leather or leather cloth and to have clean outer covers of cloth. The cushions are to be fitted with springs besides the usual coir stuffings, and four hand straps are to be near the door. The floor and well of the carriage is to have a coir foot-mat of proper dimensions.

3. The springs and the axles must be of thoroughly sound manufacture. All the iron work strongly put together and the carriage must have a good pair of lamps.

4. No carriage drawn by a pair will be licensed in the second class unless both animals are fit for their work and at least 18 hands high; and none drawn by a single horse unless the animal is fit for its work and at least 14 hands high.

5. On the outside of the door of a second class carriage shall be painted the figure "II" in Roman character.

(c)—*Third class.*

1. No carriage shall receive a third class license unless it be in a clean and safe condition and has sufficient room inside to seat four persons conveniently, and has also stout and steady axles, springs and wheels and also a good pair of lamps. No cloth-covered seats will be allowed, but plain polished wood with leather back.

2. When drawn by a pair of ponies, each pony must be in a fit condition and at least 12 hands high. When drawn by a single pony, the animal must be fit for its work and at least 13 hands high.

3. On the outside of the door of the third class carriages shall be painted the figure "III" in Roman character.

(d)—*General.*

1. No animal shall be deemed fit for its work unless it is so in respect of height, bone, muscle and condition and for the work of drawing the carriages.

2. Harness must be of a good description and strong. No chain or rope traces or string fastenings will be allowed.

3. Under section 16 of the Act, carriages of all three classes shall each have a plate affixed in some conspicuous part of the outside of the carriage, specifying the class, the number of such carriage in the register and the number of persons it is licensed to carry. Both the second class and third class carriages must have the owner's name legibly written above the door.

4. All conveyances licensed under the Act will, at all times, be subject to inspection at the place at which they are kept, or the owner may be required under special notice from the Registering Officer to take his carriages and horses to the office of the Registering Officer for the purposes of inspection not oftener than twice during the currency of the license.

5. Every person applying for a driver's license must be acquainted with the principal places and streets in and around Bhagalpur, and have a thorough knowledge of the rates and fares in the schedule.

6. No person shall be licensed as a driver unless he is in all respects a fit person for such employment.

7. In the case of a person applying for a driver's license who has previously acted in that capacity, he must produce, if so required, a certificate from his last employer.

8. Every driver of a first and second class carriage, when acting as such, must wear suitable uniform to be approved by the Commissioners, and the syce must be decently clad.

9. Every first and second class when plying or when on hire shall have at least one syce and a coachman.

10. Every driver must see that no hay, straw or fodder for his animal is carried in the front portion of his carriage, and that nothing be placed at the back of the carriage so as to prevent a full view of the registered number of the plate affixed thereon and that the lamps have the number painted on them.

11. Every place where any hackney carriage or horse is kept shall be open to the inspection of the officer of the department at any hour of the day.

12. A table of distances will be supplied for every carriage when it is registered for reference to settle any dispute as to distance arising between the hirer and the driver.

No. 451M.—The 29th January 1906.—It is hereby notified that, under section 27 of the Bengal Municipal Act, III of 1884, the Lieutenant-Governor is pleased to appoint Mr. W. Egerton, i.c.s., to be a Commissioner of the Balasore Municipality, in the district of Balasore, *vice* Mr. J. Cornes, i.c.s., resigned.

No. 563 L.S.-G.—The 9th February 1906.—Whereas application has been made to the Government of Bengal by Babu Koylash Chundra Roy Mohasoy of Balasore, Zamindar, that the Government Promissory Notes of which particulars are contained in the first Schedule hereto may be vested in the Treasurer of Charitable Endowments for the territories subject to the Government of Bengal upon the trusts for the purposes and subject to the conditions specified in the second Schedule hereunder written.

Notice is hereby given that an order is proposed to be made by the Government of Bengal after the expiration of one calendar month to be computed from the first publication of this notice, vesting the said Government Promissory Notes in the said Treasurer of Charitable Endowments upon the terms aforesaid.

Any objections to the proposed order or suggestions thereon may be transmitted to the Secretary to the Government of Bengal, Financial Department, before the 15th day of March 1906.

THE SECOND SCHEDULE ABOVE REFERRED TO.

The Endowment hereby created shall be called “Babu Sristidhar Roy Mohasoy’s Water-Supply Fund.”

2. The Treasurer of Charitable Endowments for the territories subject to the Government of Bengal (hereinafter referred to as “the said Treasurer”) shall stand possessed of the Government Promissory Notes of which the particulars are contained in the first Schedule above written upon trust to receive the interest thereof when and as the same shall respectively become due and payable and from time to time [after deducting all costs of and incidental to the collection of the same or otherwise incurred by the said Treasurer in carrying out the trust including any fees for the time being payable to Government under section 13(b) of the Charitable Endowments Act] to pay the same to the Magistrate and Collector of Balasore for the time being (hereinafter referred to as “the said Magistrate and Collector”) for the purpose of the same being applied as hereinafter mentioned.

3. The trustee to be appointed under section 5 of the Charitable Endowments Act to administer the trust shall be the said Magistrate and Collector.

4. Subject to clause 5 hereof the said Magistrate and Collector shall apply the moneys to be received by him from the said Treasurer in such manner as may in his opinion in his absolute discretion be most likely to result in the improvement of the supply and quality of drinking-water available for the public use in the district of Balasore.

5. The said Magistrate and Collector shall at any time be at liberty in his absolute discretion to apply any of the said moneys which may be received by him from the said Treasurer in alleviating distress due to famine, flood or other unavoidable cause among the raiyats for the time being occupying the lands now forming the zamindari of Babu Koylash Chundra Roy Mohasoy.

6. The said Magistrate and Collector shall in books to be kept by him regularly enter or cause to be entered full and true accounts of all moneys received and paid by him as such trustee and shall submit to such public servant in such form and at such times as the Local Government may from time to time appoint and prescribe an abstract of such accounts and such returns in regard to any matters connected with the administration of the trust as the Local Government may require.

LEGISLATIVE DEPT.,
BOOK DEPÔT BRANCH,
The 9th January 1906.

THE INDIAN LAW REPORTS.

Published in **FOUR SERIES**, viz.

CALCUTTA, MADRAS, BOMBAY AND ALLAHABAD.

THE Indian Law Reports, published under the authority of the Governor General in Council, are printed in monthly parts, which are issued, as soon as possible after the first of each month, at Calcutta, Madras, Bombay and Allahabad, respectively.

The Reports comprise four Series—one for the Calcutta High Court, a second for the Madras High Court, a third for the Bombay High Court, and a fourth for the Allahabad High Court. The cases heard by the Privy Council on appeal from each High Court are reported in the Series for that High Court. Cases heard by the Privy Council on appeal from Provinces in India not subject to any High Court are reported in the Calcutta Series.

The Calcutta Series is distributed by the Bengal Secretariat Book Depot; and the Madras, Bombay and Allahabad Series are distributed direct from Madras, Bombay and Allahabad, respectively.

Persons desiring to subscribe for or purchase the Reports should apply to—
the Officer in charge, Bengal Secretariat Book Depot, Calcutta, or
the Superintendent, Government Press, Madras, or
the Superintendent, Government Central Press, Bombay, or
the Curator of Government Books, United Provinces of Agra and Oudh, Allahabad.

CANTONMENTS.

No. 117.—In exercise of the powers conferred by section 41 of the Cantonments (House-Accommodation) Act, 1902 (II of 1902), the Governor-General in Council is pleased to make the following rules for all cantonments or parts of cantonments in British India in which the said Act is for the time being operative:—

1. Every notice prescribed by section 6 may be in the appropriate form set forth in Schedule A with such variations as the circumstances of each case require.

2. Any notice required by these rules, if not served by post under section 40, may be served by any person authorized by the Cantonment Magistrate in this behalf,

(a) by giving or tendering a duly signed copy thereof to the person to whom it is addressed; or

(b) where the notice cannot be served as prescribed in clause (a) by causing it to be affixed to some conspicuous part of the house to which it relates, and by publishing it in one vernacular and one English daily newspaper.

3. Every petition of appeal under section 35 shall state the grounds of appeal.

4. When a Committee of Arbitration, hereinafter referred to as "the Committee," has been duly constituted and each of the members thereof informed by the Cantonment Magistrate of the fact, as provided in sub-section (1) of section 30, the Chairman of the Committee shall, within a week from receipt of such notice, fix the time and place of meeting and give notice in writing of the same to the other members of the Committee, and, through the Cantonment Magistrate, to the parties concerned.

5. The notice given to the parties under the preceding rule shall state the purpose for which the Committee will assemble, and shall contain a direction to them to produce their evidence, oral and documentary, on the date fixed, or if they are unable to do so, to forward to the Chairman at least seven days prior to the day of the meeting, a list of the witnesses whom they desire to be summoned in their behalf, either to give evidence or to produce documents relating to the matter in dispute.

6. On receipt of the lists of witnesses and documents, if any, the Chairman shall, if he considers the request made for the attendance of the witnesses named and the production of the documents called for to be reasonable, transmit the list to the Cantonment Magistrate for issue of the necessary processes under section 30 (2) of the Act. If he considers the attendance of any witness named or the production of any document called for to be unnecessary, he shall inform the party concerned and the point whether such witness should be summoned or such document called for shall be determined by the Committee at their first meeting.

7. It shall be open to the Chairman to call for the attendance of witnesses or the production of documents other than those named by the parties, and to transmit a list of these to the Cantonment Magistrate for action.

8. The Chairman shall record in the award the question for decision, the number of the Station Order convening the Committee, the names and status of the members thereof, and the decision arrived at. The award shall be signed by the Chairman, and shall be forwarded by him in duplicate to the Cantonment Magistrate for disposal.

9. The Committee shall have power to correct any clerical mistake or error in their award which may have arisen from any accidental slip or omission.

10. The Committee, or any of their number or any person especially authorised by them in this behalf, may enter into or on any building or land, which is the subject of arbitration; and may make such inspection, aided if required, by expert evidence, as they may think fit.

11. Every requisition for reference of any question to a Committee of Arbitration shall set forth the grounds upon which the applicant relies.

12. Where any member of the Committee of Arbitration dies or becomes incapable of acting, the officer or owner, as the case may be, who nominated him shall nominate another person in his place within seven days from the date on which he is called upon to do so, and, if he fails to do so, the District Magistrate shall forthwith appoint a member in his place.

13. The parties shall be entitled to appear at and be heard at the meetings of the Committee of Arbitration, or at the hearing of appeals under Chapter V, either in person or through duly qualified pleaders.

14. The Chairman shall furnish a copy of the award to each of the parties free of charge and shall then forward the original to the Cantonment Magistrate.

15. The powers of entry conferred by section 13 and section 39, sub-section (4), and the powers of entry and inspection conferred by rule 10 shall only be exercised between sunrise and sunset:

Provided that—

(1) no building or land which may be occupied at the time shall be entered, unless with the consent of the occupier thereof, without twenty-four hours' written notice having been given to the said occupier;

(2) when any building used as a human dwelling is entered, due regard shall be paid to the social and religious sentiments of the occupiers; and no apartment in the actual occupancy of a woman shall be entered until she has been informed that she is at liberty to withdraw, and every reasonable facility has been afforded to her for withdrawing.

16. No person in military employ below the rank of non-commissioned officer shall be authorised under the provisions of section 13 or 39, sub-section (4), or of rule 10.

17. Whoever obstructs any person authorised to inspect or enter a house, such person not being a public servant within the meaning of section 21 of the Indian Penal

Code, shall be punishable with fine, which may extend to Rs. 50, and, in the case of a continuing offence, with fine which, in addition to such fine as aforesaid, may extend to five rupees for every day after the first during which such offence continues.

No. 792 M.—The 20th February 1906.—It is hereby notified that, under section 27 of the Bengal Municipal Act, III of 1884, the Lieutenant-Governor is pleased to appoint Babu Ashutosh Bhattacharji to be a Commissioner of the Bhatpara Municipality, in the district of 24-Parganas, *vice* Babu Mohendra Nath Goswami, resigned.

No. 794 L.S.-G.—The 20th February 1906.—It is hereby notified for general information that in exercise of the power conferred on him by section 138 of the Bengal Local Self-Government Act, III of 1885, the Lieutenant-Governor intends to cancel rule 4 of the rules made under clauses (g), (i) and (m) of that section and published under Notification No. 3334 L.S.-G., dated the 20th December 1901, at pages 293—305 of Part IB of the *Calcutta Gazette* of the 25th idem, and also rule 3 which was, by Notification No. 664 T.—M., dated the 19th May 1905, substituted for rule 3 of the aforesaid rules.

2. The Lieutenant-Governor also intends to substitute the following rules for rules 2 and 12 of the aforesaid rules:—

Rule 2.—A candidate for first employment as District Engineer must be qualified in one of the manners following, that is to say, he must—

- (a) be at the time of seeking the employment, or have previously been, a member of the permanent establishment of the Public Works Department in the grade of Executive or Assistant Engineer or Sub-Engineer or Supervisor; or
- (b) hold the degree of Bachelor of Engineering or be a Licentiate of Engineering of the Calcutta University, or have passed the final examination of the Engineering Department of the Civil Engineering College at Sibpur; or
- (c) have served an apprenticeship of not less than three years in the United Kingdom with some recognised firm of Engineers of high standing; or
- (d) have passed satisfactorily through the whole course of instruction at a recognised School of Engineering in the United Kingdom (*e.g.*, King's College, London; Cooper's Hill College; the Crystal Palace School of Engineering).

Provided that in all cases the candidate must have held charge of important works for not less than five years and must produce a certificate from his immediate superior during such employment that his conduct was satisfactory. The candidate must also produce evidence that his knowledge of the native language is such as to qualify him for employment as a District Engineer.

Note to clause (b)—Candidates who have passed the final examination of the Engineering Department of the Colleges of Engineering of Roorkee, Madras or Poona are also eligible provided the number of candidates from the Civil Engineering College at Sibpur is found to be insufficient.

Rule 12.—On receipt of the confirmation of the Commissioner, the Chairman of the District Board shall publish an advertisement which shall be three times repeated in the *Calcutta Gazette* and in the *Statesman*, the *Englishman*, the *Indian Daily News*, the *Bengali*, the *Pioneer*, the *Civil and Military Gazette*, the *Times of India* and the *Indian Engineering* newspapers stating the terms of the appointment and the qualifications required.

3. These proposals will be taken into consideration with a view to their final adoption on the 1st April 1906. Any objection or suggestion which may be made by any person and received before that date will be considered.

No. 796 M.—The 20th February 1906.—Whereas a notification No. 2249 M., dated the 8th November 1905, was published in Part IB of the *Calcutta Gazette* of the 15th November 1905, declaring the intention of the Lieutenant-Governor, in exercise of the powers conferred by section 9 (e) of the Bengal Municipal Act, III of 1884, on the recommendation of the Commissioners of the Asansol Municipality, in the district of Burdwan, made at a meeting, to alter the number of Commissioners fixed for that Municipality so as to raise it from nine to ten, and whereas no objection has been raised to the proposal within six weeks from the date of the publication of the aforesaid notification within the Municipality, it is hereby notified for general information that, under section 9A (2) of the Act, the Lieutenant-Governor is pleased to direct that the number of Commissioners of the said Municipality shall be fixed at ten.

No. 798M.—*The 19th February 1906.*—It is hereby notified that, under section 17 of the Bengal Municipal Act, III of 1884, the Lieutenant-Governor is pleased to appoint the following gentlemen to be Commissioners of the Asansol Municipality, in the district of Burdwan:—

Published in **FOUR SERIES**, viz.

CALCUTTA, MADRAS, BOMBAY AND ALLAHABAD.

THE Indian Law Reports, published under the authority of the Governor General in Council, are printed in monthly parts, which are issued, as soon as possible after the first of each month, at Calcutta, Madras, Bombay and Allahabad, respectively.

The Reports comprise four Series—one for the Calcutta High Court, a second for the Madras High Court, a third for the Bombay High Court, and a fourth for the Allahabad High Court. The cases heard by the Privy Council on appeal from each High Court are reported in the Series for that High Court. Cases heard by the Privy Council on appeal from Provinces in India not subject to any High Court are reported in the Calcutta Series.

The Calcutta Series is distributed by the Bengal Secretariat Book Depôt; and the Madras, Bombay and Allahabad Series are distributed direct from Madras, Bombay and Allahabad, respectively.

Persons desiring to subscribe for or purchase the Reports should apply to—

the Officer in charge, Bengal Secretariat Book Depôt, Calcutta, or
the Superintendent, Government Press, Madras, or
the Superintendent, Government Central Press, Bombay, or
the Curator of Government Books, United Provinces of Agra and Oudh, Allahabad.

Proceedings of the Bengal Legislative Council.

GOVERNMENT OF BENGAL

LEGISLATIVE DEPARTMENT

Abstract of the Proceedings of the Council of the Lieutenant-Governor of Bengal assembled under the provisions of the Indian Councils Acts, 1861 and 1892.

THE Council met in the Council Chamber on Saturday, the 17th February 1906, at 12 noon.

Present:

The Hon'ble SIR ANDREW FRASER, K.C.S.I., Lieutenant-Governor of Bengal, *presiding*.

The Hon'ble MR. L. HARE, C.S.I., C.I.E.

The Hon'ble MR. F. A. SLACK.

The Hon'ble MR. B. L. GUPTA.

The Hon'ble MR. P. O'KINEALY, Advocate-General of Bengal.

The Hon'ble MR. R. W. CARLYLE, C.I.E.

The Hon'ble MR. L. P. SHIRRES.

The Hon'ble MR. G. GORDON.

The Hon'ble MR. C. G. H. ALLEN.

The Hon'ble MR. C. F. LARMOUR.

The Hon'ble BABU AMBIKA CHARAN MAZUMDAR.

The Hon'ble BABU NALIN BEHARI SIRCAR, C.I.E.

The Hon'ble MR. J. CHAUDHURI, M.A.

The Hon'ble ASIF KADR SAIYID WASIF ALI MIRZA, of Murshidabad.

The Hon'ble RAJA BAN BEHARI KAPUR, C.S.I.

The Hon'ble BABU JOGENDRA NATH MUKHERJEE, M.A., B.L.

The Hon'ble MR. J. D. NIMMO.

The Hon'ble BABU BHUPENDRA NATH BASU, M.A., B.L.

The Hon'ble MR. SYED SHURFUDDIN.

QUESTIONS AND ANSWERS.

GROWTH OF COTTON IN BENGAL.

The Hon'ble BABU JOGENDRA NATH MUKHERJEE asked:—

(a) Will the Government be pleased to state if any steps have been taken by it since the creation of the Department of Agriculture, to stimulate the growth of cotton in the several districts of this Province? If so, what they are?

(b) Will the Government be pleased to state as far as possible, what experiments have been made by it and what results have been obtained, as regards the production of cotton in the several districts of this Province?

The Hon'ble MR. CARLYLE replied:—

"The Bengal Department of Agriculture was created in 1885. It is only since 1903 that the Department has taken steps to stimulate the growth of cotton.

"Attempts are being made (1) to improve the outturn and quality of local varieties of cotton by selection of seed in the important cotton-growing districts, and (2) to introduce superior varieties of cotton from Egypt and America, and from other Provinces in India.

"The Hon'ble Member is referred to the answer given to Question No. II of the Hon'ble Babu Ambika Charan Mazumdar asked at the Council Meeting of the 2nd December, 1905, for further details.

"Besides these steps, the Department has tried the following experiments at the farms under its charge; (1) comparison of the outturn of a few select varieties, and (2) production of superior hybrids of cross fertilisation. The past two or three years have been unfavourable for cotton cultivation in this Province, and the experiments have not given results that can be safely regarded as definite. It is intended to continue the experiments."

OPERATION OF THE LAND REVENUE SALE LAW.

The Hon'ble BABU JOGENDRA NATH MUKHERJEE asked:—

Will the Government be pleased to state:—

(a) Whether the 19 cases of hardship mentioned in the recent Government Resolution on the Administration of the Board of Revenue, Lower Provinces, for 1904-05, regarding the operation of the Land Revenue Sale Law, comprise only those cases in which the Hon'ble Members of the Board agreed with the Divisional Commissioners in their recommendations for annulment of sales on the ground of hardship?

(b) Whether there were any cases during the period 1904-05 in which such recommendations of the Divisional Commissioners, on the ground of hardship were not acted upon by the Board of Revenue; if so, the number of such cases?

The Hon'ble MR. CARLYLE replied:—

"(a) The 19 cases mentioned in the Government Resolution on the Land Revenue Administration Report for the year 1904-1905 comprise only those cases in which the Board of Revenue agreed with the Divisional Commissioners in recommending the annulment of sales on the ground of hardship.

(b) There were only two cases during the year 1904-1905 in which the Board did not support the recommendations of Divisional Commissioners."

THE CALCUTTA AND SUBURBAN POLICE SUPERANNUATION FUND.

The Hon'ble BABU AMBIKA CHARAN MAZUMDAR asked:—

Will the Government be pleased to state what was the outstanding balance of the Calcutta and Suburban Police Superannuation Fund, which has become vested in Government under the operation of the Calcutta and Suburban Police (Superannuation Fund) Act, 1905?

The Hon'ble MR. SHIRRES replied :—

"The balance of the Calcutta and Suburban Police Superannuation Fund which has become vested in Government is Rs. 3,48,540-8-7."

REDUCTION OF ESTABLISHMENTS IN CERTAIN OFFICES IN BENGAL.

The Hon'ble BABU AMBIKA CHARAN MAZUMDAR asked :—

Will the Government be pleased to lay on the table a statement showing the reduction effected under the partition of Bengal in the establishments of the following offices, viz.:—the Bengal Secretariat, the Board of Revenue, the Public Works Department and in the offices of the Inspector-General of Police, the Commissioner of Excise, the Accountant-General, the Postmaster-General, the Inspector-General of Civil Hospitals, the Inspector-General of Registration, the Director of Land Records and Agriculture, the Director of Public Instruction and the Sanitary Commissioner for Bengal?

The Hon'ble MR. CARLYLE replied :—

"The question of the reduction to be effected in the offices named in the question is still under discussion with the Government of India."

THE BENGAL SMOKE-NUISANCES ACT.

The Hon'ble MR. LARMOUR asked :—

Will the Government be pleased to state when it is proposed to bring into operation the Bengal Smoke-Nuisances Act passed by this Council last year?

The Hon'ble MR. CARLYLE replied :—

"A Commission has been appointed under the terms of section 4 of the Act, and the members have been notified in the Calcutta Gazette of the 24th January. On the same date Mr. Nicholson, who has had large experience of similar work in England and who had arrived two days before in Calcutta was appointed Chief Inspector. It was not considered advisable to appoint the Commission until Mr. Nicholson arrived. He has been diligently studying local conditions since his arrival; and the Commission with his assistance will now frame rules under section 10 of the Act. As soon as these rules have been approved by the Governor General in Council, they will be notified; and the Act will then be operative."

REDUCTION OF FEES UNDER THE PUBLIC DEMANDS RECOVERY ACT.

The Hon'ble BABU AMBIKA CHARAN MAZUMDAR asked :—

Will the Government be pleased to state whether it is or it is not a fact that considerable surpluses are annually left in almost every district out of the process fees realized for the service of notices and execution of certificates under the Public Demands Recovery Act? If so, will the Government be pleased to consider whether it is not feasible to make a reduction in the rate or rates at which such fees are levied at present?

The Hon'ble MR. CARLYLE replied :—

In the great majority of certificate cases the process fee is the only charge made for all the work done in the Certificate and Nizarat and other departments in connection with the recovery of claims. Government is not prepared to say what surplus may fairly be held to accrue when all the charges which can legitimately be debited to this head are set off, and these charges are likely to be modified as a result of the inquiries which are now being made by the Commission appointed to inquire into ministerial salaries. In the opinion of Government the present charges are moderate, and do not call for reduction. At the same time, the possibility and propriety of reducing the fees are matters which will receive attention after receipt of the Commission's report.

THE BENGAL DISORDERLY HOUSES BILL, 1905.

The Hon'ble MR. GORDON presented the Report of the Select Committee on the Bill to provide for the discontinuance of brothels and disorderly houses in certain localities in Bengal. He said:—

“The Bill has been amended in certain important particulars and the amendments are all shown in italics. Some of these amendments affected questions of principle specially those referred to in paragraph 7 of the Report. This therefore required the sanction of the Government of India. The amendments have been forwarded to that Government and until the orders of the Government of India have been received the proceedings in this Council will remain pending.

THE BENGAL LAND REGISTRATION (AMENDMENT) BILL,
1905.

The Hon'ble MR. HARE presented the Report of the Select Committee on the Bill to amend the Land Registration Act, 1876. He said:—

“The amendments which have been proposed are very slight, and they are referred to in the Report of the Select Committee. I do not think therefore there is any occasion for me to make any remarks at present.

THE BENGAL COURT OF WARDS (AMENDMENT) BILL, 1905.

The Hon'ble MR. HARE presented the Report of the Select Committee on the Bill to amend the Court of Wards Act, 1879. He said:—

“I do not propose to ask your Honour for leave that the Report of the Select Committee on the Bill to amend the Court of Wards Act, 1879, be taken into consideration, nor do I propose to ask for permission that the Bill be considered in the form recommended by the Select Committee. The reason is that certain amendments which have not been before the Select Committee for their consideration have been put in rather late, and Government have not had sufficient time to consider them in their consequences fully. We think therefore that it would be better to adjourn that part of the Business to the next meeting of Council. I beg, therefore, to move that the Motion which stands in my name, namely, that the Report of the Select Committee on the Bill to amend the Court of Wards Act, 1879, be taken into consideration, be postponed to the next meeting of Council.

The Motion was put and agreed to.

The Council was then adjourned to Saturday, the 3rd March, 1906.

No. 1115 L.R.—The 26th February 1906.—In exercise of the power conferred upon him by section 27 of the Coöperative Credit Societies Act, 1904 (X of 1904), the Lieutenant-Governor is pleased to make the following rules to carry out the purposes of the said Act in the Province of Bengal:—

RULES.

Definitions.

1. In these rules,—

“the Act” means the Coöperative Credit Societies Act, 1904; and

“the rules” means rules made under the Act and for the time being in force.

2. (1) Every application for the registration of a Society must be submitted to the Registrar, Coöperative Credit Societies, in the form contained in the schedule to these rules, and must be signed by the applicants.

Application for registration.

(2) With every such application there must be submitted a copy of the by-laws (if any) which the Society proposes to make, and such copy must be signed by the applicants.

Procedure of Registrar on receipt of such applications.

3. (1) The Registrar shall examine such application and by-laws in order to satisfy himself as to—

(a) whether they are in conformity with the Act and the rules;

(b) whether the by-laws are suitable for ensuring the safe conduct of business and the carrying out of the intentions of the Act; and

(c) whether the Society fulfils the intentions and conditions of the Act and the rules; and may require any alterations to be made in the application or by-laws in order to bring them into conformity with the Act or the rules.

(2) If the Registrar is not satisfied on all points mentioned in clauses (a), (b) and (c) of sub-rule (1), he shall refuse to register the Society; but if he is so satisfied, he shall grant a certificate of registration.

(3) Whenever the Registrar refuses to register a Society, he shall record his reasons in writing, and the applicants may appeal to the Board of Revenue whose decision shall be final.

4. (1) Any member of a Society may nominate any person to whom or to whose credit the moneys referred to in section 16 of the Act shall be paid or transferred on the death of the member.

Nominees of deceased members.

(2) The Society must keep a register of all persons so nominated.

5. (1) Registered societies may borrow, in accordance with law, from either members or non-members; and all borrowings shall be regulated by by-laws.

Borrowing.

(2) Borrowings from members shall ordinarily take the form of deposits.

(3) The maximum amount of borrowings shall be determined annually at a general meeting of the Society, and shall be reported to the Registrar.

6. (1) Any Society may make by-laws in respect of the following matters namely:—

Power to make by-laws.

(a) the name and registered address of the Society, and the area of its operations;

(b) the objects for which the Society is established; the purposes for which the funds thereof are applicable; the terms of admission of members; the conditions under which members may obtain loans, and the consequences of default in payment of any sum due by a member;

(c) the mode of holding meetings, the right of voting, and the manner of making, altering and abrogating by-laws;

(d) the rights and liabilities of membership;

(e) the mode of appointment and removal of a Committee and officers (if any), and the duties and powers of the Committee and the officers;

(f) the manner in which capital may be raised, by means of shares or debentures, or by borrowing from persons who are not members, or by taking deposits from members, or otherwise;

(g) the mode of custody and of investment of the funds, and, subject to the rules, the mode of keeping the accounts; and

(h) any other matters incidental to the management of the business of the Society.

(2) When a Society has been registered, the by-laws submitted under rule 2 shall, subject to any modifications approved by the Registrar, become the by-laws of the Society on their being adopted by a majority at a meeting of not less than two-thirds of the members.

(5) By-laws may be made, altered or abrogated thereafter in accordance with a resolution passed at a general meeting of the Society:

Provided that—

- (a) due notice of any proposal to make, alter or abrogate is given in accordance with the by-laws;
- (b) the resolution is passed by not less than two-thirds of the members present at the general meeting, and by not less than half of the total number of the members; and
- (c) the making, alteration or abrogation is approved by the Registrar.

Accounts and books.

7. Every Society shall keep the following accounts and books, namely:—

- (a) Register of members, together with their addresses, caste and date of membership;
- (b) Register of shares or debentures (if capital is raised by shares or debentures);
- (c) Cash account;

Government Promissory Note No. 162621 of the $3\frac{1}{2}$ per cent. loan of 1865 for ...	600

The second Schedule above referred to.

1. The endowment hereby created shall be called after the donor, "Dr. Chandra's Scholarship Fund," and its object is and shall be the maintenance of the said Fund, particulars whereof are given in the First Schedule hereto, for the purpose of founding two scholarships to be paid out of the income of the said fund, for the benefit of the students *and also as regards the scholarship referred to in clause 2 hereof of the ex-students of the Medical College, Calcutta, as hereinafter mentioned.*

2. (a) One of the scholarships will be of the value of Rs. 361-8 per annum and shall be called "Dr. Chandra's scholarship in Materia Medica and Therapeutics" to be awarded to the best successful candidate, who shall be selected at an examination to be held annually, or, in the event of the scholarship being made tenable for two years as contemplated by clause (f) hereof, at such time as may be prescribed by the Principal of the Medical College, Calcutta. Such examination to be held by the Professor for the time being of Therapeutics of the Medical College, Calcutta.

(b) The examination shall be open (1) to all senior students, for the time being, of the Medical College, Calcutta, (2) to any *ex-senior* student of the Medical College, Calcutta, who may at the time of the examination be studying at any Medical College in India, or in Europe, and (3) to any graduate or licentiate in medicine of whatever standing, and, however employed, who may have obtained either in Europe or in India a medical diploma or degree entitling him to practise medicine, provided that such graduate or licentiate at some time received a portion of his professional education in the Medical College, Calcutta. Certificates to the effect that the candidate fulfils the above requirements, together with one of good moral character signed by a person of respectability must be submitted to the Principal of the Medical College, Calcutta, along with the candidate's application, at least a month before the examination.

(c) Personal attendance at the examination will not be insisted upon, but the submission, by such date as may be fixed by the said Professor, of a signed Thesis on some subject connected with Materia Medica and Therapeutics, with special reference to Indian drugs, to be selected by the said Professor shall be sufficient.

(d) The Thesis shall be examined and adjudicated upon by the said Professor.

(e) Evidence of original investigations in indigenous drugs shall not be insisted upon, but it shall be previously announced that preference will be given to the candidate whose Thesis bears evidence of original investigations of any worth in connection with such drugs.

(f) The scholarship to be ordinarily tenable for one year. But it may be made tenable for two years in case of exceptional merit on the recommendation of the Examiner.

(g) In case the scholarship is not earned in any year the amount shall lapse to the capital fund to be utilised either for the creation of a second scholarship, for increasing the value of the scholarship already existing, or for awarding a prize in a cognate subject to a deserving candidate, at the discretion of the examiner, with the sanction of the Principal, Medical College, Calcutta.

3. The other scholarship will be of the value of Rs. 241 per annum to be called after the donor's wife, "Mrs. Mary Chandra's scholarship," and will be awarded to the female medical student of the Calcutta Medical College who stands first at the end of the first year's examination. The scholarship to be tenable for two years whether the successful candidate completes her medical study in India or Europe. Such scholarship, if earned, is to be awarded every year, so that after the first year there will be two scholarships of the same value.

4. Should the above scholarships be not earned in any year, it shall be awarded in the next year as an additional scholarship in the particular branch of the endowment in which it is not earned, subject to the terms hereinbefore contained regarding such scholarship being fulfilled, and provided that in the case of the scholarship referred to in clause (3) the additional scholarship will be awarded to the female medical student of the Calcutta Medical College who stands second at the end of the first year's examination.

5. The person appointed under section 5 (1) of Act VI of 1890 to administer the trust shall be the Principal of the Medical College, Calcutta, for the time being.

6. The Principal of the Medical College, Calcutta, as such trustee as aforesaid, shall appropriate and apply the interest from the said Government securities, which shall be paid to him by the Treasurer of Charitable Endowments in the manner hereinbefore provided, and then, if there be any balance, in awarding an additional prize or prizes to the next best or successful candidate or student in order of merit in the respective classes described in clauses (2) and (3) respectively.

7. If at any time hereafter the said scholarships or either of them shall be deemed by the said Principal of the Medical College, Calcutta, to have become in any way unnecessary or inexpedient, the Lieutenant-Governor of Bengal may, with the consent or approval in writing of the administrators to the donor's estate, or their heirs or representatives, if any, whom failing then at the sole discretion of the Lieutenant-Governor appropriate the interest of the said Government securities for any other similar purpose as may be decided upon by the Local Government.

No. 1M.P.I.—In exercise of the powers conferred by section 4 (1) of the Indian Electricity Act (III of 1903), the Lieutenant-Governor of Bengal is pleased to grant to the Calcutta Tramways Company, Limited, a license for the supply of energy for electric traction within the area specified in the first annexure to the license.

No. 2M.P.I.—The following license under the Indian Electricity Act (III of 1903), which has been granted to the Calcutta Tramways Company, Limited, under the authority of the notification of the Government of Bengal, No. 1M.P.I., dated the 27th February 1906, is published for information.

A. S. THOMSON,
Offg. Secy. to the Govt. of Bengal.

LICENSE.

LICENSE for purposes of supply of energy for electric traction within the Municipality of Howrah granted by the Government of Bengal under the Indian Electricity Act, 1903, to the Calcutta Tramways Company, Limited, incorporated under the English Companies Act, and having its Registered Office at No. 1 Queen Victoria Street, in the City of London, and a local office and accredited agents at No. 1 Corporation Street, Calcutta.

I. This license may be cited as the Calcutta Tramways (Howrah) Electric Traction License, 1906.

- II. (i) The provisions contained in the schedule to the Indian Electricity Act, 1903, are deemed to be incorporated in this license except the provisions contained in clauses VI to XIII, inclusive, which do not apply to this undertaking.
- (ii) This license shall be read and construed subject in all respects to the provisions of the said Act so far as the same are applicable to the supply of energy hereby licensed, and the several words and expressions defined thereby shall have in this license the same respective meanings as in the said Act.
- (iii) The expression "deposited map" shall mean the plan of the area of supply deposited by the licensee with, and signed by, the Secretary to the Government of Bengal in the Public Works Department.
- (iv) The expression "Licensee" shall mean the Calcutta Tramways Company, Limited, and its permitted assigns.

III. **Area of supply.**—The area of supply is the area described in the first annexure to this license and more particularly delineated on the deposited map and thereon coloured red.

IV. **Commencement of license.**—This license shall come into force and have effect upon the day when a notification confirming it is published in the *Calcutta Gazette*, and that day shall, for the purpose of the said Act, be deemed to be the commencement of this license.

V. **Terms of purchase.**—The option of purchasing the undertaking accorded to the local authority and the Local Government by section 7 (i) and (ii) of the said Act shall be exercisable on the 1st day of January 1931 and at the end of every subsequent period of seven

years after the 1st day of January 1931 during the subsistence of this license and the terms of such purchase shall be as follows:—

The local authority or the Local Government shall have the right of purchasing the tramways with the plant, machinery, land, buildings, rolling stock, stores and things used in connection therewith belonging to the licensee and its undertaking within the Municipal area of Howrah on the 1st day of January 1931 upon the purchaser declaring its intention so to purchase the same in writing not less than twelve calendar months before the said date and the local authority or the Local Government shall have a renewed right of purchase at the end of every seven years after the 1st day of January 1931 upon similar notice being given. The consideration for such purchase shall be a cash payment of 25 times the difference between the average gross annual receipts and the working expenses of the licensee in respect of the said tramways which said working expenses shall *inter alia* include track rent and the upkeep and maintenance of the said tramways, plant, machinery, buildings and rolling stock. The average of the gross annual receipts and the working expenses for the purposes of such purchase shall be determined by taking the average of the seven years immediately preceding the date of such purchase. Upon the expiry of the said notice the licensee shall make over to the purchaser the said tramways, plant, machinery, land, buildings, rolling stock, stores and things connected therewith within the Municipality of Howrah. If the payment by the purchaser of the consideration for such purchase shall be delayed beyond the period of thirty days from the date of the purchase the purchaser shall pay to the licensee interest on the amount of such consideration or such part thereof as shall be then unpaid at the rate of 5 per cent. per annum from the date of purchase until payment, but in no event shall the said consideration be allowed to remain unpaid for more than six months from the date of the purchase.

The Company will prior to the date of the expiration of any notice to be given by the local authority or the Local Government under and pursuant to the last preceding paragraph well and sufficiently repair to the satisfaction of the purchaser such of the said tramways and of the said plant, machinery, buildings, rolling stock and other things or such portions thereof respectively as shall then be in need of repair and will place or restore the same in or to a good and serviceable order and condition and will so make over the same to the purchaser. If default shall be made by the Company in complying with the provisions of this clause the purchaser shall for such default and to the extent thereof be entitled to a deduction from the consideration for the purchase of the said tramways plant, machinery, land, buildings, rolling stock, stores and other property of the Company mentioned in the last preceding paragraph, the fact of such default and the amount of such deduction to be determined by the arbitration of two indifferent persons—one to be appointed by the licensee and the other by the purchaser, or an umpire to be appointed by the arbitrators before entering on the business of the reference, and the decision or award of the said arbitrators or umpire as the case may be, shall be final and binding on the licensee and the purchaser, and these presents shall be deemed to be a submission to arbitration within the meaning of the Indian Arbitration Act, 1899, or any statutory modification or enactment thereof for the time being in force, the provisions whereof shall apply as far as applicable.

VI. *General description of works and system of supply.*

(a) This license is given for the purposes of the supply of energy for electric traction only.

(b) *System of distribution.*—Three-phase current at a pressure of 6,600 volts to be transmitted at a frequency of 25 cycles per second from the power station of the licensee located on the Lower Circular Road, Calcutta, to a sub-station located in Howrah, by means of special duplicate 3-core high tension cables laid underground. In the sub-station the high tension alternating current will be transformed to continuous current at a pressure of 550 volts by means of static transformers and rotary converters. This continuous current will be distributed to various points along the system by means of underground cables where they will feed into the overhead trolley wires from which the Motor Cars will derive the necessary current.

(c) Both the high tension transmission mains and the low tension distributing mains will be laid in earthenware troughings filled with pitch, and in the case of the former, a separate trough will be provided for each. Duplicate high tension submarine cables will be laid under the Hooghly River to join the Calcutta mains with those of Howrah.

It is proposed to instal the overhead Trolley system, using steel poles for the support of the trolley wires, of which there will be two, one for each track. The size of the trolley wires will be 3/0 S. W. G. The overhead trolley line will be divided into half-mile sections, conforming to Government rules, and will be doubly insulated throughout.

VII. *Power to break up Streets, Railways, Tramways and Bridges, etc.*—In pursuance of the provisions of section 12, sub-section (4) of the said Act, the Licensee is hereby specially authorised to open and break up the railways mentioned in the second annexure hereto, so far only as concerns level-crossings and parts of the railway running along the highway on the level, and the streets, roads, drains or sewers which are mentioned in the third annexure to the license.

VIII. For the purpose of conveying and transmitting energy to the area of supply, the Licensee may lay down mains from a generating station in Calcutta throughout or along such streets or parts of streets without the area of supply as the Local Government may, by order in writing, direct to and up to the point on the boundary of the area of supply, which is

delineated on the deposited map and thereon indicated by the letter "M," and the Licensee shall and may for the purposes of this clause have and exercise in respect of such streets or parts of streets as aforesaid all and every the powers conferred by the Act, subject to the restrictions or limitations in the exercise thereof therein also contained.

IX. Compulsory works.—Without prejudice to the further powers herein contained, the Licensee shall, within three years after the commencement of the license, lay down such suitable and sufficient mains or conductors in the streets and parts of streets mentioned in the third annexure to this License as may be necessary for the distribution of energy for traction. This period shall, however, be extended as may be necessary in case the work in connection with the suitable laying or erection of such mains or conductors is interfered with by reason of any delay on the part of the Municipal Commissioners of Howrah in acquiring the necessary land and in completing the necessary road widening or other works in connection therewith.

X. Deposit.—The sum to be deposited by the Licensee in pursuance of clause I of the schedule to the said Act shall be a sum equal to 10 per cent. of the probable outlay to be incurred by the licensee but not exceeding Rs 20,000.

XI. Scale of Plans.—Where any plan is required by or under the Act with respect to this License or the work to be carried out thereunder, the plan shall be on the largest scale available for the district, except with the written consent of the Local Government. Sections will be drawn to any horizontal scale as the Local Government may direct.

XII. Price of License.—Copies of this License may be obtained from the Licensee at No. 1, Corporation Street, Calcutta, at a cost not exceeding one rupee per copy.

FIRST ANNEXURE.

A. PEDLER,
Director of Public Instruction, Bengal.

RULES FOR GRANTS-IN-AID TO SCHOOLS IN BENGAL FOR INDIAN PUPILS (SANCTIONED IN BENGAL GOVERNMENT ORDER No. 1413 T.—G., DATED THE ^{20TH JULY}_{2ND AUGUST} 1905).

1. An allotment from Provincial revenues is assigned annually by Government to be expended in grants-in-aid to schools not under Government management, provided they fulfil the conditions prescribed in the following rules and are conducted in accordance with the general rules laid down by the Department.

2. The allotment is distributed by the Director of Public Instruction, on the recommendation of the Divisional Inspectors, to schools which are certified to be eligible under these rules, reference being had to the requirements of each locality, as compared with others, and to the funds available. In determining the amount of the grants, special consideration shall be shown to schools which have a highly-qualified and well-paid staff and which levy fees at comparatively high rates.

Ordinary grants are given in aid of ordinary recurring expenditure.

Special grants are given in aid of non-recurring expenditure of a special character.

Temporary grants are given in certain cases in aid of boarding-houses and hostels in accordance with the principle that such establishments should generally be made self-supporting in so far as recurring expenditure is concerned.

3. Any school to which a grant-in-aid is given, together with all its accounts, books and other records, shall at all times be open to inspection and examination by any officer appointed by the Government for the purpose, and to this end the records and accounts shall be placed in such custody that they shall be always accessible on the visit of any inspecting officer. Such inspection and examination shall have no reference to religious instruction, but only to secular education.

NOTE.—The following books shall be kept by all aided schools:—

- (a) An admission register.
- (b) Attendance registers for teachers and scholars, together with a summary of such attendance, and a book for keeping copies of "D" forms for preserving the monthly abstract of attendance.
- (c) A register showing whether boys attending the school live with parents or recognised guardians or in hostels or messes, and, if in the last, whether such institutions are under proper supervision.
- (d) A cash-book and a book containing copies of "C" forms for preserving the monthly abstract account and also acquittance-rolls showing the payment of all teachers and all scholarship-holders.
- (e) A visitors' book.
- (f) A diary, stoutly bound and containing not less than 200 pages.
- (g) A book in which all transfer certificates received, and all declarations of guardians on scholars first entering school are duly kept, and a guard-book in which details of all transfer certificates issued from the school and signed by the head-master are kept under the care of the head-master.
- (h) A book containing the proceedings of the Managing Committee of the school, if any such Committee exists.
- (i) Service-books of teachers, which shall be kept up to date.
- (j) A catalogue of library books, and also a book in which the dates of issue and return of such books shall be entered.
- (k) A correspondence book or file.
- (l) A conduct register, in which all corporal punishment inflicted upon students shall be recorded.
- (m) A book showing the results of class examinations and at departmental examinations, as also at the University Entrance or other similar examinations.

The head-master shall, from time to time, make entries in the diary, showing the visits of the Managers and Inspectors, the curricula and progress of the various classes, and other important facts concerning the school or its teachers and students, such as appointments, dates of joining, dismissal or resignation, or absences due to illness of teachers, instructions to staff, serious infringement of discipline, use of school buildings for purposes other than school, etc., which are likely to be required for future reference. Such communications from the Inspector of Schools as he may direct to be inserted in the diary must be copied *verbatim* therein. An entry shall be made at least once a month by the head-master showing the progress of the various classes in their different subjects of study, but no reflections or opinions of a general character are to be entered.

The only persons authorised to make entries in the diary are the head-master, the Inspector, and the Assistant Inspector of Schools in the case of high schools, while in the case of middle schools the Deputy Inspector may also make entries. The diary shall be kept in the custody of the head-master, but shall be open at all times to the inspection of the Managers as well as of inspecting officers. No entry once made may be erased or removed, nor may it be altered otherwise than by a subsequent entry.

At the commencement of each school session, the names of all teachers who are to form part of the school staff for the year, and the distribution of the work among them, shall be entered in the diary and signed by the head-master. Any subsequent change in the staff, or in the distribution of the work, should similarly be recorded.

4. Inspecting officers will interfere as little as possible with the local management of the school, but shall satisfy themselves that the instruction is efficient, and that the conditions on which the grants were made are fulfilled; and aid will be withdrawn from any school in which such conditions are not fulfilled.

5. Grants are given on the principle of strict religious neutrality, and no preference will be shown to any school on the ground that any particular religious doctrines are taught or not taught therein.

6. Grants will be made to such schools only (with the exception of training schools, girls' schools, night schools for adults, and schools for aborigines and low castes) as realize some fee, however small, from all their scholars. Exemption from this rule may be allowed in exceptional cases by the Director of Public Instruction.

7. No grant shall be made to a high school unless provision is made for (a) instruction in drawing, drill, gymnastics, and, if required, in manual training also; (b) employment of graduates and trained teachers; (c) employment of teachers who have passed the oral examination in English for teaching all the subjects taught through the medium of English; (d) instruction in any subjects which may be required by the local conditions of the place in which the school is situated; and (e) spending a portion of the grant on purchase of educational and other appliances for practical teaching of various subjects; nor shall a grant be admissible unless the medium of instruction in classes below the fourth be in accordance with the requirements of the scheme for vernacular education sanctioned in Government Resolution No. 1, dated the 1st January 1901.

8. The managers of any school applying for a grant must appoint a Secretary to conduct their correspondence with the Department, and all their names must be stated.

9. The managers shall be responsible for the due expenditure of the school funds in accordance with the conditions of the grant.

10. In respect of any school for which application is made, full information must be supplied on the following points, on which the grant will depend, and must be given in the shape required in Form A appended to these rules:—

- (a) The pecuniary resources, permanent and temporary, on which the school depends for support.
- (b) The proposed monthly expenditure in detail.
- (c) The average number of pupils under instruction.
- (d) Class of children attending the school, together with their races and creeds.
- (e) A rough statement of social position or calling of parents of the pupils.
- (f) The names and social standing of the persons who will form the Committee of Management, and the classes they represent.
- (g) The class of school and course of instruction.
- (h) The number, qualifications, and salaries of the teachers.
- (i) The fees to be charged in each class.
- (j) The amount of aid sought.
- (k) The treasury at which the grant, if sanctioned, is to be payable.
- (l) The existence of other schools of whatever class within a distance of four miles of the school applying for a grant. In the case of towns like Calcutta, the four-mile limit will not be observed, but in such cases information as to neighbouring schools must be fully given.
- (m) The nature and size of the school-house and of the rooms contained in it, and also a description of the surroundings of the school. If possible, a rough map of the school and its immediate surroundings should be sent in, showing whether the school has a garden or play-ground and whether there are any arrangements for the residential accommodation of either masters or pupils.
- (n) The nature of the provision which has been made for the sanitary arrangements of the pupils and teachers, and the sanitation of the school buildings and its compound.

11. An application for a grant shall be made either directly to the Divisional Inspector or to the District Deputy Inspector, who shall forward it, with his remarks, to the Inspector. The Inspector shall consult the District Magistrate, and, if they agree as to the rejection of the application, shall reject it; otherwise it shall be forwarded to the Director of Public Instruction for sanction or orders as the case may be with the opinion of the District Magistrate and his recommendation.

12. Grants shall not exceed in amount the sums to be expended from private sources except in special cases, under special orders of Government. Municipal contributions will be reckoned for this purpose as receipts from public sources.

13. Aided schools are divided into the following classes:—

High Schools—In which the pupils are educated up to the standard of the Entrance Examination of the Calcutta University or up to the standard of the "B" and "C" classes, or to similar standards.

Middle Schools—In which the pupils are educated up to the Middle Scholarship standard.

Primary Schools—In which the pupils are educated up to the Upper or Lower Primary Scholarship standard.

Girls' Schools—Including agencies for *sanskrit* instructions.

Training Schools—For the training of masters and mistresses.

Special Schools—For instruction in special subjects or for special classes of pupils, such as music schools, schools for the deaf and dumb and for the blind.

14. Grants are of two kinds—Annual grants and special grants.

Annual Grants.

15. For high schools the grants shall not exceed one-half of the income guaranteed from private sources, except in the districts of—

Birbhum,	Chittagong,
Dinajpur,	Tippera,
Rangpur,	Noakhali,
Bogra,	The Patna Division,
Darjeeling,	The Bhagalpur Division,
Jalpaiguri,	The Orissa Division,
Mymensingh,	The Chota Nagpur Division, and the
The island of Dakshin Shahbazar	thanas of Khatra, Raipur and Simlatal
in Backergunge,	in Bankura,

in which the grants may equal two-thirds of the income so guaranteed.

16. For middle schools, in which the expenditure is more than Rs. 40 a month, the grants shall not exceed two-thirds of the income guaranteed from private sources, except in the places mentioned above, in which the grants may equal the income so guaranteed.

17. For primary schools, and for middle schools in which the expenditure does not exceed Rs. 40 a month, as well as for girls' schools, training schools and special schools, the grant shall not exceed a sum equal to the full amount of the income guaranteed.

18. The amounts laid down are maximum grants, but it must be understood that the maximum grant will not in all cases, and as a matter of course, be sanctioned.

19. No grant shall be made, or, if made, shall be continued, unless the buildings are well constructed and contain sufficient accommodation for the scholars in attendance. The rooms also must be properly furnished, lighted and ventilated, and the surrounding premises properly drained. (General directions on these points have been issued by the Department.)

20. Grants will be sanctioned ordinarily for a term of three years; but the Inspector may, at any time during its currency, recommend the revision of any grant. Notice of a proposed reduction, or suspension, if considerable, shall be given to the managers, who may, if considered necessary by the Inspector or Director, be allowed an opportunity of stating any objection that they may have.

21. When a grant is sanctioned the managers shall sign an agreement, on stamped paper, to the effect that they will conduct the school in accordance with the conditions of the grant.

22. The sanction of a grant shall be conveyed in the following form:—

Office Memorandum of the Director of Public Instruction.

(1) A grant of Rs. _____ a month is sanctioned from the _____ 190 _____, for the school at _____, in the district of _____, on the following conditions:—

(a) That Rs. _____ a month at least be regularly contributed from private sources.

(b) That the following scale of expenditure be maintained, subject to any alteration that may be sanctioned by the Inspector:—

	Rs.
Head-master
Second master
Third master
Servants
Contingencies } In case of girls' schools only	...
Total	—

(2) The grant shall be payable every month.

(3) The monthly bill (in Form B annexed) must be sent to the Inspector for countersignature, and must be accompanied by an account (in Form C) for the month preceding that for which the bill is drawn and by a certificate that all salaries for the previous month have been paid in full.

After countersignature the bill will be paid at the _____ treasury.

[NOTE.—Where the sanctioned scale contains an item for prize or library, separate accounts should be kept and vouchers should be filed of the prize or library fund expenses.]

(4) The monthly bill and the certificate must be signed by the Secretary of the school.

(5) The bill shall be countersigned on the distinct understanding that the salaries and other charges, certified by the Secretary to have been paid, have actually been paid.

(6) Salaries for service in any month shall become due on the first day of the following month.

(7) The appointment and dismissal of every teacher shall be notified to the Department. No appointment shall be confirmed until it has received the sanction of the Department; and the Department shall have the power to enquire into any case of dismissal of a teacher.

(8) The grant shall be liable to be reduced or withdrawn if the payment of any teacher's salary is delayed for more than two months after it has become due.

(9) The grant shall be liable to be reduced or withdrawn if the school is unfavourably

reported on as regards the attendance or proficiency or discipline of the scholars. With the monthly bills for grant-in-aid a statement of the attendance of pupils in all the classes for the previous month shall be submitted in Form D.

(10) The grant shall be liable to be reduced or withdrawn if the managers keep their accounts in a negligent or untrustworthy manner, or if they send up incorrect accounts, or if they fail to transmit punctually the periodical returns required by the Department, or if the Department is otherwise dissatisfied with the management.

(11) The grant shall be liable to be reduced or withdrawn, if the teachers are inefficient or if they are absent from duty otherwise than in accordance with the rules of the Department, or if they keep the school registers in a negligent or untrustworthy manner.

(12) Holidays shall not exceed 65 days in the year, exclusive of Sundays, except under peculiar circumstances and with the sanction of the Inspector.

(13) Free studentships shall not ordinarily exceed 5 per cent. of the total number of pupils on the rolls, exclusive of scholarship-holders. Managers of high schools may, with the sanction of the Inspector, admit an additional number (not exceeding 12) of Muhammadans as free students up to the limit of 8 per cent. of the total number of pupils on the rolls.

(14) The Department shall have power to define the subjects of instruction to be given, and to have a voice in settling the fee-rates, in controlling expenditure, in enforcing discipline, and in regulating attendance.

(15) The Department shall have power to direct the Managers to purchase such articles as furniture, teaching appliances, black-boards, maps, library books, etc.

(16) Every new election to the Committee of Management shall be notified to the Inspector under the signatures of the Secretary and of the member or members elected.

(17) Every change of Secretary shall be notified to the Inspector under the signatures of the new Secretary and the members of the Committee of Management.

(18) All receipts, from whatever sources or for whatever purposes collected, shall be entered in the account book of the school, which shall be open to inspection and examination by any officer appointed by Government for the purpose. All receipts collected by the headmaster should be remitted on the same date, as far as possible, to the Secretary with a challan to be signed by the Secretary after the receipt of the money.

(19) No part of the previous balance of the school shall be spent without the sanction of the Inspector, except for payment of the sanctioned establishment, in order to make up any deficit in the private contributions in any particular month.

(20) The surplus funds of the school shall be placed in the Postal Savings Bank at the end of each quarter, and the savings bank account should be made out in the joint names of the Secretary and one of the members of the Managing Committee, who will be selected for the purpose by the Committee.

(21) No new building shall be constructed for the school until the plan and estimates have been approved by the Inspector.

22. Government may claim a fair share of any balance at the credit of a school at the time of its abolition, as well as of the sale-proceeds of any school-house or furniture towards the erection, enlargement, repairs or purchase of which a grant may have been given by Government.

Special Grants.

23. Grants may be given to managers of schools in aid—

- (a) of erecting, enlarging or furnishing school buildings;
- (b) of attaching boarding establishments to high schools;
- (c) of executing extensive repairs; and
- (d) in special cases, of paying off debts incurred in erecting or enlarging school buildings.

NOTE.—(1) Expenditure in the purchase of buildings may be treated as expenditure in the erection of buildings.

(2) The sum to be allotted annually for building grants to schools shall be fixed provisionally for a term of years. It shall not, in ordinary circumstances, be reduced, though it may be increased for any year during that term.

(3) Every application for a grant shall be submitted to the Department not later than on the 31st December, if the grant is to be admissible for sanction during the following financial year. If found to be in accordance with the rules, and in other respects deserving of support, it will be included in the list of "approved applications." If not so included, the reasons shall be notified to the managers.

(4) The total sum allotted for the year will be divided between schools for different sections of the community (Europeans, Hindus, Muhammadans, Native Christians, etc.), in some proportion to the requirements of each community, as indicated by the amount of the "approved applications" received from each, regard being also paid to preferential claims as explained in note (5).

Grants not required by one section of the community may, towards the close of the year, be reappropriated to meet the wants of another section.

(5) In selecting "approved applications" for sanction, those projects that involve the education or boarding of an increased number of pupils shall ordinarily be preferred to those that merely seek to improve the accommodation of existing pupils.

(6) In the case of an application for a repair grant under rule (c), the managers will be required to show that the necessity for such a grant has not arisen from the neglect of current repairs in previous years.

24. Except in the case provided in the foregoing rule, no grant shall be made in consideration of previous expenditure on school buildings.

25. In general, the proportion of the Government contribution made under rule 23 shall not exceed the proportion laid down in Rules 15 to 18 for a school of the same class.

NOTE.—The sum of Rs. 10,000 is fixed as ordinarily the maximum grant for any undertaking or project.

26. Before a building grant is sanctioned, the site, plans, estimates, specifications, title and draft trust-deeds must be approved by the Director of Public Instruction. If the school receives no monthly grant, the managers must also satisfy the Department that it is likely to be maintained in efficiency and that it will be open to inspection.

27. The trust-deed must declare the building to be granted in trust for school purposes only. It must also provide for the legal ownership of the premises, for the proper maintenance of the building, and for the inspection and management of the school.

NOTE.—(1) This rule does not preclude the managers from using the building for other purposes, subject, if necessary, to the sanction of the Department, when not required for the purposes of the school.

(2) When the grant does not exceed Rs. 1,000, the manager may execute a deed of acceptance in place of a trust-deed (*vide* Government order No. 584, dated the 13th November 1890).

28. No grant will be finally sanctioned until a certificate is received from the managers, setting forth that the funds in their hands will, when added to the grant, be sufficient to meet all claims and to close the account.

29. Advances may be made from time to time out of the sanctioned grant on receipt of a report from the Public Works Department that the work is proceeding satisfactorily.

30. No grant will be paid in full until—

(1) a report is received from the Public Works Department or other competent authority that the building is satisfactorily completed, and

(2) the trust-deed is duly registered and lodged with the Department.

NOTE.—"Title-deeds of property mortgaged to Government on account of building grants may, as hitherto, remain with the mortgagor" (*vide* Government order No. 44T.—G., dated the 16th June 1890).

NOTIFICATION.

THE ELLIOTT PRIZE FOR SCIENTIFIC RESEARCH FOR 1906.

WITH reference to Notification No. 5058-F., in the *Calcutta Gazette* of the 28th December 1892, Part I, page 1172, the Elliott Prize for Scientific Research will be given this year to the author of the best original essay composed during the year 1906, giving the results of original research or investigation by the essayist in Natural Science.

2. Any native of Bengal, including any Eurasian or domiciled European residing in Bengal, may compete for the prize.

3. The essays of competitors *must be* sent to the President of the Asiatic Society of Bengal, 57, Park Street, Calcutta, by the end of December 1906. The prize will be adjudged to the best competitor, and awarded publicly at the Annual General Meeting of the Asiatic Society in February 1907.

4. Preference will be given to researches leading to discoveries likely to develop the industrial resources of Bengal. In the case of no essay being deemed by the Trustees to be of sufficient merit, no prize is to be awarded, but the amount is to be retained, so that in any future year two or more prizes may be given, or the prize may be enhanced in the case of an exceptionally good essay.

ORDERS BY THE LIEUT.-GOVERNOR OF BENGAL.

MUNICIPAL AND LOCAL.

NOTIFICATIONS.

No. 820M.—The 22nd February 1906.—Under the provisions of section 308 of the Bengal Municipal Act, III of 1884, the following plan, which has been submitted by the Commissioners of the Cossipore-Chitpur Municipality for lighting with gas the following roads in the said Municipality and 100 feet from their edges, is published for general information—

- (1) The whole of the Cossipore Road, commencing from the Bagbazar Canal Bridge and ending in Baranagar Bazar situate within the Municipality.
- (2) The portion of the Barrackpore Trunk Road from the Talla Canal Bridge to its junction with the Gun Foundry Road.

2. An agreement has been entered into between the Commissioners of the Cossipore-Chitpur Municipality and the Oriental Gas Company for the supply and lighting of lamps at the rate of Rs. 63-1 per lamp per year. The expenditure for lighting 98 lamps in the above roads is estimated at Rs. 6,180, including charges for repair of lamps according to the existing arrangements with the Oriental Gas Company.

3. The Municipal Commissioners propose to meet the charge to be incurred on account of lighting the aforesaid areas by imposing a lighting rate of 3 per cent. on the annual value of holdings situated in the areas referred to. The income to be realized from the lighting-tax in the aforesaid areas is estimated at Rs 5,716 a year.

No. 847M.—The 23rd February 1906.—It is hereby notified that, under section 27 of the Bengal Municipal Act, III of 1884, the Lieutenant-Governor is pleased to appoint Revd. W. Stanber to be the Chairman of the Lohardaga Municipality, in the district of Ranchi, *vice* Revd. G. Beermann, resigned.

No. 844M.—The 23rd February 1906.—It is hereby notified for general information that under section 82 of the Bengal Municipal Act, III of 1884, the Lieutenant-Governor intends to make the following additions and alterations in the Rules in Appendix A of the rules framed under the above section of the Act for keeping the accounts of municipalities and for the audit of such accounts and which were published under Notification No. 5472M., dated the 13th December 1897 at pages 297 to 358 of the *Calcutta Gazette* of the 15th idem.

These rules will be taken into consideration with a view to their final adoption on the 1st May 1906, when any objection or suggestion which may be made by any person and received before that date will be considered.

In Rule 28, line 1, substitute "two" for "three."

In Rule 39, line 3, after the words "100 forms" insert the sentence—

"Each bill book should have stitched to it at the commencement, a memorandum in Form F(a)."

In Rule 36, line 6, substitute "this memorandum" for "counterfoils."

In Rule 36, line 8, substitute "memorandum at the commencement" for "fly-leaves."

In Rule 42, line 5, substitute "memorandum at the commencement of the bill book" for "counterfoil of the bill."

In Rule 43, line 1, substitute "duplicate" for "triplicate."

In Rule 43, line 4, substitute "memorandum at the commencement of the bill book" for "counterfoil."

In Rule 43, line 5, substitute "book" for "counterfoil."

In Rule 44, substitute the following for the first four lines of paragraph 2:—

"The Tax-daroga or his assistant shall check the account by comparing the credits with the amounts in the memorandum and initial and date each entry in the latter. He will then work out in the memorandum the number of unrealised bills and verify it by actually counting the number still remaining in the bill book and initial the entries concerned in the bill book."

Rule 45 is to be amended as shown below.

2. The Rules as amended will stand as follows:—

36. The bill shall be filled up from the Demand Register, Form A (or columns 1 to 5, Form B). Before the bills are brought to be signed they should be compared with the Demand Register by some responsible officer, who shall record a certificate in the fly-leaf of each book as follows:—"I hereby certify that I have examined this bill book and have ascertained the correctness of the numbering and correspondence of the sums and names in the bills and receipts and this memorandum with the Demand Register, and I certify that the number of forms in this book for the _____ rate for the _____ quarter of _____ amounts to _____ (in words)." This certificate may be printed on the memorandum at the commencement of the bill books.

42. The Tax-daroga shall commence the service of the bills on the first day of the quarter by making over to each of the sarkars one or more books of his circle for delivery to the rate-payers. If the tax be paid upon presentation of the bills, the sarkar shall sign the red receipt which he shall deliver to the tax-payer, and shall note the date of payment in the memorandum at the commencement of the bill book, and enter details of each paid bill in the Daily Register of Collection, Form I.

43. If the tax be not paid on presentation of the bill, the sarkar shall (if duplicate bills be used) separate the bill from the receipt and serve the bill in manner prescribed in section 356 of the Act. He shall at the same time, whenever possible, mention the date when he will again demand payment. The date of service shall be noted in the memorandum at the commencement of the bill book. The receipt shall not be detached from the book except on payment or remission in full of the demand, and it shall be the duty of the Tax-daroga to bring to the notice of the Vice-Chairman any instance in which he may detect an infringement of the rule.

44. The sarkar shall return to the Municipal office either every day, or if so permitted by the Vice-Chairman, every alternate day, and shall deliver to the Tax-daroga all the money he has collected, together with the Daily Register, Form I, and the bill books in his possession.

The Tax-daroga or his assistant shall check the account by comparing the credits with the amounts in the memorandum and initial and date each entry in the latter. He will then work out in the memorandum the number of unrealised bills and verify it by actually counting the number still remaining in the bill book and initial the entries concerned in the bill book. He shall then total the Register and see that it corresponds with the money given to him by the sarkar; and if all is in order, he shall initial the account in token of having received the money. If the service of the bills in the book or books in the possession of the sarkar has been completed, he shall return them to the Tax-daroga, and take away a fresh batch for service.

45. As soon as a bill book has been completely written up and compared, its particulars should be entered in the first three columns of the transit register and then submitted with it to the officer authorised to stamp his facsimile signature upon the bills. After this has been done, he will initial the entry in column 4 to ensure that all bill books stamped by him have been entered in the transit register and to guard against duplicate sets of bill books being stamped with his signature. The initials of the sarkars should always be obtained in the register against the entry for the book concerned at the time it is issued to him. Similarly, when a book is returned and is not issued again the same day, the number of uncollected bills in it should be counted and entered in the register, the entry being initialled by the Tax-daroga in the presence of the sarkar returning the bill."

No. 858 L.S.-G. — The 24th February 1906.—It is hereby notified that, under section 24 of the Bengal Local Self-Government Act, III of 1885, the Lieutenant-Governor is pleased to re-appoint the Deputy Commissioner of Hazaribagh to be the Chairman of the District Board of Hazaribagh.

No. 929 M., dated the 27th February 1906.—Whereas an application for the purpose of constructing an electric tramway within the Municipality of Howrah has been made to the Lieutenant-Governor of Bengal by the Calcutta Tramways Company, Limited, hereinafter called "The Promoters," with the approval of the Municipal Commissioners of Howrah given at a special meeting convened for the purpose agreeably to the provisions of section 3, Bengal Act III of 1883; and whereas in accordance with section 4 of the said Act the plans and drawings of the proposed works, together with an estimate and the provisions agreement hereinafter published made between the promoters and the local authority have been submitted to Government; and whereas no objections to such application have been filed within the time appointed; and whereas it appears to the Lieutenant-Governor after due enquiry, to be expedient and proper to grant the said application; the Lieutenant-Governor, under the authority vested in him by section 5 of the said Act, is pleased to make the following order:—

L. P. SHIRER,
Secy. to the Govt. of Bengal.

ORDER.

1. This Order may be cited as the Calcutta Tramways (Howrah) Order 1905.
2. The Tramway authorized under this Order shall be subject to all the provisions of the Bengal Tramways Act, 1883, and the Calcutta Tramways Company, Limited, which

and their Assigns are hereinafter called "The Promoters," shall in addition to the powers and authorities herein contained, have all the powers and authorities conferred by the said Act.

3. The Promoters and their Assigns are hereby authorized to construct, maintain and work, subject to the provisions of this Order, and in accordance with plans and sections deposited with the Local Government, a Tramway with double lines on the following routes, and between such other places and by such other routes as may hereafter be approved by the Municipal Commissioners of Howrah and sanctioned by the Local Government:—

Route A.—Starting from Grierson Road (Hooghly Floating Bridge) *via* Dobson Road, Golabaree Road, Grand Trunk Road and Hurrogunge Road, to a terminus at the Southern end of the Ghosery Road.

Route B.—Starting from Grierson Road (Hooghly Floating Bridge) *via* Dobson Road, Golabaree Road, East, and Howrah Road to the Southern end of the Ghosery Road.

Route C.—Starting from Grierson Road (Hooghly Floating Bridge) *via* Buckland Bridge Road, Maidan Road and Grand Trunk Road to a terminus at Kaurapara Ghat Road.

Route D.—Starting from Kaurapara Ghat Road along Grand Trunk Road joining Route "A" to Golabaree Road, and proceeding, if necessary, along Hurrogunge Road, to the terminus of Route "A."

4. The Promoters have entered into an Agreement with the Local Authority as to the terms on which the said authority will permit such Tramway within their Municipal limits, which Agreement is hereby confirmed subject to the modification that the Promoters, should have 12 months' notice of the intention of the Commissioners to purchase the Tramway in lieu of six months as provided for in Article 7 thereof and a copy of which is set out in the Schedule hereto.

5. The Local Authority shall have power to purchase such Tramway with the plant, machinery, land, buildings rolling-stock, stores and all other things used in connection therewith belonging to the Promoters and their undertaking within the area of the Municipality at the time or times and upon the terms and conditions laid down and contained in Articles 4 and 7 of the agreements entered into between the Chairman of the Municipal Commissioners of Howrah and the Promoters dated the 9th day of May 1905.

6. The Tramway shall be completed and opened for traffic in the case of the Routes "A," "B" and "C" abovementioned within two years from the date when the whole of the roadways over which the said routes respectively run widened in accordance with the provisions of the said agreement dated the 9th day of May 1905, have been made over by the Local Authority to the Promoters with full liberty, right, and sanction to the Promoters to lay their lines and construct their Tramway thereon or from the date when the Promoters shall have obtained the necessary License from the Government of Bengal for the supply of energy under the Indian Electricity Act, 1903, whichever shall be the later date.

7. Such land as may be required by the Promoters as necessary for the purposes of the Tramway shall, on the application of the Promoters, be acquired by the Local Government on behalf of the Promoters under the Land Acquisition Act, 1894, and the cost of acquiring such land shall be met by the Promoters; such land when no longer required by the Promoters for the purposes of such Tramway may be disposed of by them as and when they think fit.

8. The Tramway shall be constructed to a gauge of 4 feet 8½ inches. The rails will be of the grooved girder type weighing 101 lbs. per yard, and in general shall be laid on a concrete stringer foundation and held to gauge by means of tie-bars spaced according to standard practice. The Promoters may from time to time with the approval of the Local Government adopt any such improvements in the rails, in their situation and in the sub-structure upon which they rest as they may deem necessary for the proper working of the said Tramway.

9. The Promoters shall at all times maintain and keep in good condition and repair to the satisfaction of the Local Government, and so as not to be any danger to the ordinary traffic, the rails and overhead wires and appliances and the sub-structure of the Tramway.

10. The Promoters may stack material excavated, road metal and other materials used in the construction or maintenance of the Tramway on the side of the road occupied by the Tramway, but the same shall be stacked in such a manner as not to impede the traffic on the road, and the Promoters may use, when necessary for the purposes of such repairs of the roads and streets as they are liable for, the materials excavated during the course of construction and maintenance of the said Tramway. The Promoters shall with the consent of the Local Authority cut down or lop any tree alongside of the road which will interfere with the operation of the cars or be a source of danger to the Tramway traffic.

11. Subject to the approval of the Local Government the Promoters may from time to time hereafter make all such crossings, passing places, sidings, junctions or other works in addition to those particularly specified in and authorised by this Order as may from time to time be necessary or convenient for the efficient working of the Tramway, or for providing access to any building or work of the Promoters.

12. The motive power of the said Tramway shall be electrical energy conveyed by means of overhead trolley wires. The rails will be used as return conductors, and for this purpose will be adequately provided at the joints with copper bonds to ensure a complete circuit.

13. The rates to be charged shall not exceed 2 annas per mile for 1st class and 1 anna per mile for 2nd class passengers.

THE SCHEDULE ABOVE REFERRED TO.

ARTICLES OF AGREEMENT made this 9th day of May 1905 between the Chairman of the Municipal Commissioners of Howrah (hereinafter called "the Commissioners") of the one part and the CALCUTTA TRAMWAYS COMPANY, LIMITED, a Company incorporated under the English Companies Acts and having its Registered Office at 1, Queen Victoria Street, in the City of London (hereinafter called "the Company") of the other part, WHEREAS the Company are desirous of constructing, maintaining and working tramways within the Municipality of Howrah along the following routes:—

Route A.—Starting from Grierson Road (Hooghly Floating Bridge) *via* Dobson Road, Golabaree Road, Grand Trunk Road and Hurrogunge Road to a terminus at the Southern end of the Ghoserry Road.

Route B.—Starting from Grierson Road (Hooghly Floating Bridge) *via* Dobson Road, Golabaree Road, East, and Howrah Road to the Southern end of the Ghoserry Road.

Route C.—Starting from Grierson Road (Hooghly Floating Bridge) *via* Buckland Bridge Road, Maidan Road and Grand Trunk Road to a terminus at Kaurapara Ghat Road.

Route D.—Starting from Kaurapara Ghat Road along Grand Trunk Road, joining Route "A" at Golabaree Road, and proceeding, if necessary, along Hurrogunge Road to the terminus of Route A.

AND WHEREAS the Company are about to apply to the Local Government under the Bengal Tramways Act, 1883, as amended by Act I of 1904, for an order authorising the construction of such Tramways, NOW THESE PRESENTS WITNESS, and it is hereby agreed as follows:—

1. The Company shall forthwith apply to the Local Government for an order under the Bengal Tramways Act, 1883, authorising the Company to construct, maintain and work a tramway with double lines to be worked by electric traction by means of overhead wires along each of the said routes, and the Company shall use its best endeavours to obtain such orders.

2. The gauge of such Tramways shall be 4 feet 8½ inches.

3. The Commissioners shall forthwith apply to the Local Government for the loan of such a sum of money as shall be sufficient to cover all expenses of and incidental to the acquisition of the land required for the widening of the roads on which the said Tramways are under the provisions of this agreement to be laid and of and incidental to the widening of such roads so that such roads when so widened shall not be more than 40 feet nor less than 32 feet in width and shall immediately upon such loan having been granted and the money so lent becoming available take steps to acquire the land so required for the purpose of widening the roads as aforesaid and shall commence and complete with all due expedition and diligence the work of and in connection with such widening PROVIDED that in the event of the money to be so advanced by the Local Government being sufficient to permit of the said roads being widened to a greater extent than 32 feet then the roads shall be widened to such extent beyond 32 feet as the said monies shall permit, it being the intention of the parties that all monies to be so advanced by the Local Government shall be expended on the widening of the said roads and the acquisition of the lands necessary for such a purpose, and that in no event shall the width be less than 32 or more than 40 feet.

4*. The Company will during the period of four years from the ninth day of May one thousand nine hundred and five pay interest at the rate of four per cent. per annum on one-half of the amount of any loan advanced to the Commissioners by the Government pursuant to any application made under the provisions of clause 3 hereof but the amount on which the Company shall be required to pay interest shall not in any case exceed one half of rupees two hundred and fifty-thousand. During the said period of four years the Commissioners shall sell the surplus of all lands which may have been acquired by them for such widenings as are referred to in clause 3 hereof. If the aggregate net proceeds of sale of all such surplus land shall exceed the aggregate expenditure incurred by the Commissioners in or about the acquisition of all lands which may have been acquired by them in pursuance of clause 3 the Commissioners shall out of such excess sale-proceeds repay to the Company the amount of all interest paid by the Company under this clause the repayment of which interest shall be a first charge on such excess sale proceeds and the balance (if any) of such excess sale proceeds shall be divided equally between the Commissioners and the Company. If however the aggregate net proceeds of sale of all such surplus land shall be less than the aggregate expenditure incurred by the Commissioners in or about such acquisition as aforesaid then the Company shall pay to the Commissioners one-half of the difference between the said net sale proceeds and the said expenditure provided that the

*As revised under Agreement dated the 23rd November 1905.

Company shall not be liable to pay under this stipulation a larger sum than rupees one-hundred and twenty-five thousand.

5. The Company shall commence the construction of the Tramways along the Routes "A" and "B" so soon as the Commissioners shall have completed the road widenings necessary along the whole of those routes and shall commence the construction of the Tramway along the Route "C" so soon as the Commissioners shall have completed the road widenings necessary along the whole of such route and so soon as the Buckland Bridge Road shall have been reconstructed so as to be fit to carry the Tramway to be laid thereon. The Company may postpone the construction of the Tramway along the Route "D."

6. The Company shall pay to the Commissioners an annual track rent from the dates or times hereinafter mentioned at the rate of Rs. 1,500 per mile of double line of track completed and open for traffic. Such rent shall be payable by equal half-yearly instalments and shall form a first charge on the undertaking to be authorised by the said order. The Commissioners shall allow to be deducted from such rent all Municipal rates and taxes from time to time levied upon or in respect of the Company's tramways in Howrah and the rolling-stock used therefor, but not the rates and taxes on the Company's depôts and buildings or any other property and effects. Such track rent as aforesaid shall become payable from the following dates or times that is to say:—

In the case of the Routes A, B, and C respectively on the expiration of two years and in the case of Route D on the expiration of three years (a) from the date when the whole of the roadways forming the said routes respectively, widened in accordance with the provisions of this agreement, have been made over by the Commissioners to the Company with full liberty, right and sanction to the Company to construct the said Tramways thereon or (b) from the date when the Company shall have obtained the necessary license from the Government of Bengal for the supply of electrical energy under the Indian Electricity Act of 1903, whichever shall be the later date. Such rent shall continue to be payable until the exercise by the Commissioners of their right of purchase hereinafter recorded.

7. The Commissioners shall have the right of purchasing the said Tramways with the plant, machinery, land, buildings, rolling-stock, stores and things used in connection therewith belonging to the Company and its undertaking within the Municipality on the 1st day of January, 1931, upon declaring their intention so to purchase the same in writing not less than 6 calendar months before the said date and the Commissioners shall have a renewed right of purchase at the end of every seven years after the 1st January 1931 upon similar notice being given. The consideration for such purchase shall be a cash payment of 25 times the difference between the average gross annual receipts and the working expenses of the Company in respect of the said Tramways which said working expenses shall *inter alia* include track rent and the up-keep and maintenance of the said Tramways plant, machinery, buildings and rolling-stock. The average of the gross annual receipts and the working expenses for the purposes of such purchase shall be determined by taking the average of the seven years immediately preceding the date of such purchase. Upon the expiry of the said notice the Company shall make over to the Commissioners the said Tramways plant, machinery, land, buildings, rolling-stock, stores and things connected therewith within the Municipality. If the payment by the Commissioners of the consideration for such purchase shall be delayed beyond the period of 30 days from the date of the purchase the Commissioners shall pay to the Company interest on the amount of such consideration or such part thereof as shall be then unpaid at the rate of 5 per cent. per annum from the date of the purchase until payment, but in no event shall the said consideration be allowed to remain unpaid for more than six months from the date of the purchase.

8. The Company will prior to the date of the expiration of any notice to be given by the Commissioners under and pursuant to the last preceding clause well and sufficiently repair to the satisfaction of the Commissioners' Engineer such of the said Tramways and of the said plant, machinery, buildings, rolling-stock and other things or such portions thereof respectively as shall then be in need of repair and will place or restore the same in or to a good and serviceable order and condition and will so make over the same to the Commissioners. If default shall be made by the Company in complying with the provisions of this clause the Commissioners shall for such default and to the extent thereof be entitled to a deduction from the consideration for the purchase of the said Tramways plant, machinery, land, buildings, rolling-stock, stores and other property of the Company mentioned in the last preceding clause the fact of such default and the amount of such deduction to be determined by arbitration in the manner provided in the 11th clause of these presents.

9. The Commissioners hereby consent to the Company's application for the said order referred to in clause I hereof and shall by themselves or their officers do all such acts and things as the Company may reasonably require to enable the Company to obtain such order.

10. The Commissioners hereby so far as they lawfully can grant to the Company during the continuance of this agreement the exclusive right of constructing, maintaining and working all Tramways in Howrah other than those now already constructed or in use, and the Commissioners will not consent to or assist any application by any other persons or Company, nor themselves apply for authority to construct any other Tramways, PROVIDED ALWAYS that if the Commissioners shall give the Company notice in writing to apply for an

order authorising the Company to construct such additional Tramways as may be specified in such notice and the Company shall during a period of 12 months from the receipt of such notice neglect to apply for such order the provisions of this clause shall not apply to the Tramways specified in such notice or such of them as the Company shall not include in any application for such order to be made by them pursuant to such notice.

11. If any difference, dispute or question shall arise between the Company and the Commissioners or their respective successors or assigns touching the construction, meaning or effects of these presents or any clause or thing herein contained or the rights or liabilities of the Company or the Commissioners or their respective successors or assigns under these presents or otherwise howsoever in relation to the premises, then every such difference, dispute or question shall be referred to the arbitration of two indifferent persons, one to be appointed by each party to the reference or an umpire to be appointed by the arbitrators before entering on the business of the reference, and the decision or award of the said arbitrators or umpire as the case may be shall be final and binding on the Company, and the Commissioners and their respective successors and assigns AND these presents shall be deemed to be a submission to arbitration within the meaning of the Indian Arbitration Act, 1899, or any statutory modification or enactment thereof for the time being in force the provisions whereof shall apply as far as applicable.

Advertisement of Sale.

NOTICE is hereby given that the proprietary right of Government, as specified in the conditions of sale below, to the undermentioned estates, situate in the district of Burdwan, will be put up to sale at the Burdwan Collectorate on the 7th March 1906, corresponding to 18th Chaitra 1312 (B.S.).

Conditions of Sale.

- 1st.—The estates to be sold to the highest bidder above the upset price which will be fixed by the Collector at the time of sale. The purchasers of these estates will be considered as the proprietors of the estates, and the entire proprietary right of Government in such estates will be transferred to them with effect from 1st April 1906 as revenue free or subject to the revenue fixed in perpetuity.
- 2nd.—The sale to be subject to existing leases and to the rights conferred by the settlement proceedings and by the laws in force, and purchasers to be bound to respect the rights of resident cultivators who have signed the schedule of assessment prepared by the Revenue authorities.
- 3rd.—If the amount of purchase-money does not exceed Rs. 100, the whole amount to be paid at once.
- 4th.—If the amount of purchase-money exceed Rs. 100, one-fourth of the amount bid to be immediately deposited. If the balance be not paid by noon of the fifteenth day after the sale, reckoning the day of sale as one, or if that day be a close holiday, then by noon of the first succeeding office day, the sale will be cancelled (the sum deposited being forfeited to Government), and the estate will be again put up to sale at the risk of the defaulting purchaser, after issue of advertisement as in the case of original sale.

Advertisement of Sale.

NOTICE is hereby given that the proprietary right of Government, as specified in the conditions of sale below, to the undermentioned estates situate in the district of Hooghly, will be put up to sale at the Hooghly Collectorate on the 26th March 1906, corresponding with 12th Chait 1312 (B.S.).

The purchaser will be subject to the following conditions of sale :—

Conditions of Sale.

- 1st.—The estate to be sold to the highest bidder above the upset price, which will be fixed by the Collector at the time of sale. The purchaser of this estate will be considered as the proprietor of the estate, and the entire proprietary right of Government in such estate will be transferred to him, subject to the revenue fixed in perpetuity.
- 2nd.—The sale to be subject to existing leases and to the rights conferred by the settlement proceedings and by the laws in force; and purchasers to be bound to respect the rights of resident cultivators who have signed the schedule of assessment prepared by the revenue authorities.
- 3rd.—If the amount of purchase-money does not exceed Rs. 100, the whole amount to be paid down at once.
- 4th.—If the amount of purchase-money exceed Rs. 100, one-fourth of the amount bid to be immediately deposited. If the balance be not paid by noon of the fifteenth day after the sale, reckoning the day of sale as one, or if that day be a close holiday, then by the noon of the first succeeding office day, the sale is to be cancelled (the sum deposited being forfeited to Government), and the estate to be again put up to sale at the risk of the defaulting purchaser, after issue of advertisement, as in the case of original sale.

LEGISLATIVE DEPT.,
BOOK DEPÔT BRANCH,
The 9th January 1906.

THE INDIAN LAW REPORTS.

Published in FOUR SERIES, viz.

CALCUTTA, MADRAS, BOMBAY AND ALLAHABAD.

THE Indian Law Reports, published under the authority of the Governor General in Council, are printed in monthly parts, which are issued, as soon as possible after the first of each month, at Calcutta, Madras, Bombay and Allahabad, respectively.

The Reports comprise four Series—one for the Calcutta High Court, a second for the Madras High Court, a third for the Bombay High Court, and a fourth for the Allahabad High Court.

The cases heard by the Privy Council on appeal from each High Court are reported in the Series for that High Court. Cases heard by the Privy Council on appeal from Provinces in India not subject to any High Court are reported in the Calcutta Series.

The Calcutta Series is distributed by the Bengal Secretariat Book Depot; and the Madras, Bombay and Allahabad Series are distributed direct from Madras, Bombay and Allahabad, respectively.

Persons desiring to subscribe for or purchase the Reports should apply to—
the Officer in charge, Bengal Secretariat Book Depot, Calcutta,

or
the Superintendent, Government Press, Madras, or
the Superintendent, Government Central Press, Bombay, or
the Curator of Government Books, United Provinces of Agra and Oudh, Allahabad.

WEDNESDAY, FEBRUARY 14, 1906.

NOTICES TO MARINERS.

THE following Notices are published for general information.

CALCUTTA, the 10th February 1906.

W. A. INGLIS,
Secretary, Marine Department.

BAY OF BENGAL—BURMA COAST.

Naaf river—Buoys relaid.

No. 52 (first publication).—The following Notice to Mariners (No. 11 of 1906), issued by the Bombay Government, is republished:—

Telegraphic information, dated 20th January 1906, has been received from the Port Officer, Akyab, that Naaf river buoys are relaid in following positions:—

Outer fairway buoy, Shapuri point, bearing N. 53° E., 4.35 miles. North Tall Tree, St. Martins Island, S. 32° E., in 13 feet low water springs.

Inner buoy, Shapuri point, bearing N. 39° E., 2.8 miles. North Tall Tree, St. Martin's Island, bearing South, in 28 feet low water springs.

This Notice affects Admiralty Chart No. 3476, Naaf river, and Bay of Bengal Pilot, page 253.

INDIA, WEST—BOMBAY COAST.

Bombay harbour—New dock works.

No. 53 (first publication).—With reference to Notice to Mariners No. 497, dated 21st December 1905, issued by this office, the Bombay Government has given further notice (No. 12 of 1906) that in consequence of the closing of the channel leading to the Bulk Oil Pier by the Dam now under construction, a pipe line will be carried out on 14 pontoons to a barge moored S. E. of the South face of the Dam, alongside of which the oil steamers will be temporarily accommodated.

2. The barge will be painted white, and at night in addition to her anchor light she will exhibit 2 red lights vertically in globular lanterns visible all round the horizon at a height of 15 feet above the water line.

3. Each pontoon will be painted red and will also exhibit one red light in a similar lantern.

4. The 4 mooring buoys for the head and stern moorings of the oil steamers will be laid in the position at present occupied by the B. I. S. N. Company's "B" moorings which will be removed.

5. All vessels are hereby warned not to pass between the barge and the Dam as the passage will be completely blocked by the pipe line.

This Notice affects Admiralty Chart No. 655, Port of Bombay: Also, West Coast of Hindoostan Pilot, 4th Edition, 1898, page 201, and Supplement, 1903, page 15.

CHINA, SOUTH COAST—CANTON RIVER.

Wangmun creek—Lights established.

No. 54 (first publication).—The British Admiralty has given notice (No. 34 of 1906) that the undermentioned lights were established at the entrance to Wangmun creek:—

- a. A white group occulting diaphic light, showing groups of four eclipses every thirty seconds, thus:—light, sixteen seconds; eclipse, two seconds; light, two seconds; eclipse, two seconds; light, two seconds; eclipse, two seconds; light, two seconds; eclipse, two seconds, was exhibited from a mast surmounting a white wooden hut on a black iron pile structure, erected on the western edge of the Swashway bank at the entrance to Wangmun creek, one of the channels leading from Canton river to West river. The light, which is of 6th order, is elevated 40 feet above high water, and visible in clear weather from a distance of 10 miles.

Approximate position, lat. $22^{\circ} 35' 20''$ N., long. $113^{\circ} 37' 10''$ E.

- b. A white fixed light, visible from a distance of one mile, was exhibited from a pole surmounted by a black ball, erected on the southern edge of the bank on the northern side of Wangmun creek.

Approximate position, lat. $22^{\circ} 34' 50''$ N., long. $113^{\circ} 34' 0''$ E.

CHINA, NORTH COAST.

Chifu light—Character altered.

No. 37 (third publication).—With reference to Notice to Mariners, No. 307, dated 12th August 1905, issued by this office, the British Admiralty has given further notice (No. 1365) of 1905 that on the 18th October 1905, the character of Chifu light, on Kung tung tao, was altered from white fixed to *white group flashing*, showing groups of three short flashes every twenty seconds, and visible in clear weather from a distance of 22 miles. The light is of the 3rd order.

On the same date the two white fixed lantern lights, shown from the gallery of the lighthouse during alterations, were discontinued.

This light will in future be known as the Kung tung tao light.

Approximate position lat. $37^{\circ} 34' N.$, long. $121^{\circ} 30\frac{1}{2}' E.$

This Notice affects the following Admiralty Charts:—Hong Kong to the gulf of Liau tung, No. 1262; Pe chili and Liau tung gulfs, No. 1256; Shantung promontory, No. 1255; Ching tau chan to Chifu bluff, No. 1260; Also List of Lights, Part VI, 1905, No. 828; and China Sea Directory, vol. III, 1904, page 565.

NEW ZEALAND—SOUTH ISLAND.

Greymouth harbour—Leading lights altered.

No. 38 (third publication).—The British Admiralty has given notice (No. 1368 of 1905) that the undermentioned alterations would be made in the leading lights at Greymouth harbour:—

When the depth over the bar is less than 10 feet, the *red* leading lights will not be shown from the *red* beacons; but the *green* leading lights will be shown from the white beacons situated on Richmond quay.

When the *green* lights on the white beacons and the *red* lights on the red beacons are shown, it denotes that there is more than 10 feet of water on the bar.

The larger classes of vessels should not attempt to enter until the *red* leading lights are shown.

Approximate position, lat. 42° 26' S., long. 171° 13' E.

This Notice affects the following Admiralty Chart:—River Waiatu to cape Fouhuind, with plan of Greymouth harbour, No. 2591: Also, list of Lights, Part VI, 1905, No. 1595, and remarks; and New Zealand Pilot, 1901, page 371.

PACIFIC OCEAN—PHILIPPINE ISLANDS—LUZON, EAST COAST.

Taebun channel—Shoal southward of Kanaguan islands.

No. 39 (third publication).—The British Admiralty has given notice (No. 1371 of 1905) that a small shoal, with a depth of 18 feet over it at low water, is situated in Taebun channel, about half a mile to the south-westward of the southern island of the Kanaguan group. It is surrounded by deep water.

Approximate position, lat. 13° 49' N., long. 123° 59' E.

This Notice affects the following Admiralty Chart:—Philippine islands between St. Bernardino and Mindoro straits, No. 2577: Also, Eastern Archipelago, Part I, 1902, page 377.

PACIFIC OCEAN—PHILIPPINE ISLANDS—LUZON, SOUTH-WEST COAST.

Balayan bay—Non-existence of Minerva rock.

No. 40 (third publication).—The British Admiralty has given notice (No. 1372 of 1905) that during a recent survey of the vicinity of the Minerva rock, Balayan bay, Luzon, no trace of this danger could be found, the depths in its assigned position varying from 175 to 200 fathoms.

This shoal was originally reported by the Master of the British ship *Minerva*, who stated that his vessel struck on it at 2 A.M. on the 10th September 1834. Its existence has always been considered doubtful, and as it has previously been searched for without effect, it has now been expunged from the Chart.

Approximate position, lat. 13° 43' N., long. 120° 43½' E.

This Notice affects the following Admiralty Charts:—China sea, No. 2661b; Philippine islands, No. 943; Philippine islands between St. Bernardino and Mindoro straits, No. 2577: Also Eastern Archipelago, Part I, 1902, pages 70, 222; and China Sea Directory, vol. II, 1899, page 304.

Durour island—Amended position.

No. 46 (third publication).—With reference to notice to Mariners No. 461, dated 25th November 1905, issued by this Office, the British Admiralty has given further notice (No. 1384 of 1905) that the position of Durour island, north-east coast of New Guinea, has been fixed by the officers of H.I.M.S. *Möwe*.

The latitude of the eastern point of the island was determined by meridian altitude, taken on shore, to be $1^{\circ} 27' 30''$ S. Owing to cloudy weather the longitude of this point could not be obtained by astronomical observations, but was determined on the passage to Maty island, by means of bearings taken when both islands were in sight, to be in about longitude $143^{\circ} 6' 20''$ E.

The position of this island on the Chart has been amended accordingly.

Approximate position, Maty island, lat. $1^{\circ} 45'$ S., long. $142^{\circ} 47'$ E.

This Notice affects the following Admiralty Charts:—Pacific, south-west sheet, No. 780: Australia, northern portion, No. 2759a; north-east coast of New Guinea, No. 2766: Also, Pacific Islands, vol. I, 1900, page 414.

CHINA SEA—GASPAR STRAIT.

Pare Joie reef—Reported position.

No. 47 (third publication).—With reference to Notice to Mariners No. 323, dated 26th August 1905, issued by this Office, the British Admiralty has given further notice (No. 1385 of 1905) that a repeated and careful search has been made for the Pare Joie reef in the position reported by the American S. S. *Mississippi* in May 1905, without any trace of its existence being found.

It is consequently considered that the *Mississippi* must have been deceived by the appearance of the water, but as a reef does doubtless exist in this vicinity, on which the ship *Pare Joie* remained aground for 24 hours, it is probable that the position given by that vessel is the most reliable.

Pare Joie reef has, therefore, been transferred on the Chart from the position given by the *Mississippi* to the situation originally assigned to it by the *Pare Joie*, viz., to a position from which Gaspar island summit bears S. $\frac{1}{2}$ E., distant $5\frac{1}{2}$ miles. It has been marked P. D.

Approximate position, lat. $2^{\circ} 19\frac{1}{2}'$ S., long. $107^{\circ} 4\frac{1}{2}'$ E.

(Variation 2° Easterly in 1905.)

This Notice affects the following Admiralty Charts:—Eastern Archipelago, No. 941a; Banka and Gaspar straits, No. 2149; Gaspar strait, No. 2157: Also China Sea Directory, vol. I, 1896, page 461.

EASTERN ARCHIPELAGO—BORNEO, EAST COAST.

Muara Batagau—Buoy established.

No. 48 (third publication).—The British Admiralty has given notice (No. 1386 of 1905) that a black conical buoy surmounted by a ball has been moored in a depth of 7 fathoms in the entrance to Muara Batagau, in a position from which the southern extremity of Tarakan bears N. 79° W., distant $14\frac{1}{2}$ miles, and the eastern extremity of Bunju N. 4° W.

Approximate position, lat. $3^{\circ} 11\frac{1}{2}'$ N., long. $117^{\circ} 52\frac{1}{2}'$ W.

(Variation 2° Easterly in 1905.)

This Notice affects the following Admiralty Chart:—Strait of Makassar, No. 2636: Also Eastern Archipelago, Part II, 1904, page 341.

AUSTRALIA, SOUTH—GULF ST. VINCENT.

Port Adelaide river—A Black buoy placed.

No. 49 (third publication).—The President of the Marine Board, Port Adelaide, has given notice (No. 32 of 1905) that a Black Buoy has been placed to mark the edge of the North Bank, at a position near where the inner Green Light Beacon formerly stood. As this

Buoy will probably need to be moved slightly as the work of deepening the Outer Harbour progresses, it must be taken only as indicating the edge of the shoal, and vessels navigating that part of the channel should not approach it within 50 ft.

NOTE.—This affects Admiralty Chart 2389B, 1750, and 1752.

AUSTRALIA, SOUTH—GULF ST. VINCENT.

Port Adelaide river—Semaphore Signal Station.

No. 50 (*third publication*)—The President of the Marine Board, Port Adelaide, has given notice (No. 33 of 1905) that, on and after the 1st January next, the method of signalling from the Semaphore Station the depth of water in the Port Adelaide River will be altered. Copies of the regulations, in which the new signals are described in detail, may be had upon application at these offices.

Port of Aguada—Light to be fixed.

No. 72 (*first publication*).—The Bombay Government has given notice (No. 16 of 1906) that information, dated 22nd January 1906, has been received from the Captain of the Port, Aguada, through the Consul-General for Portugal in British India, Bombay, that from the 10th February 1906 Aguada light will be fixed until further notice.

This Notice affects the following Admiralty Charts:—No. 827, Vengurla to Cape Comorin; No. 2737, Vizianag to Cochin; No. 740, Achra river to Cape Ramas; No. 492, Aguada to St. George Islands, including Marmugoa and Goa roadstead, and West Coast of Hindustan Pilot, 4th edition, 1898, page 164; also list of Light-houses and Light-vessels in British India, page 28, No. 257.

ARABIA, NORTH-EAST COAST—PERSIAN GULF.

Rennie Shoal—Depth of water.

No. 73 (*first publication*).—The Bombay Government has given notice (No. 18 of 1906) that the Commander of the B. I. S. N. Co.'s S.S. *Waroonga* reports that on her recent voyage from Koweit to Bahrein the vessel grounded on the shoal which was reported by H. M. S. *Sphinx* in 1897, bearing S. $\frac{1}{2}$ W. $2\frac{3}{4}$ miles from Rennie Shoal and to have a depth of 19 feet.

It appears that there is less water on this shoal than previously reported, as the S.S. *Waroonga* was only drawing 15' 6" at the time of her grounding.

This Notice affects Admiralty Chart No. 2837C, Persian Gulf, Western Sheet, and Persian Gulf Pilot, 4th edition, 1898, page 137.

FIRST FORECAST OF THE WHEAT CROP OF BENGAL, 1905-1906.

THE following note is published for general information.

R. W. CARLYLE,

Offg. Chief Secy. to the Govt. of Bengal.

The 13th February 1906.

DEPARTMENT OF AGRICULTURE, BENGAL.

First Forecast of the Wheat crop of Bengal, 1905-1906.

[On an average of five years ending 1903-04, the area under wheat in the territory to which this Forecast relates has represented some 6·2 per cent. of the total area under wheat in British India.

The ratio of irrigated wheat acreage to total wheat acreage (a) in British India and (b) in the territory now reported on, has in the five years ending 1903-04, averaged (a) 41·5 per cent. and (b) 2·2 per cent, respectively.]

Explanatory.—The present Forecast relates to the Province of Bengal as now constituted. That is, it excludes the 14 districts recently transferred to the new Province of Eastern Bengal and Assam while it includes Sambalpur which has been transferred to this Province from the Central

Provinces. Neither Sambalpur, however, nor most of the districts made over to the new Province grow much wheat. As a matter of fact, the crop is grown chiefly in Bihar. Outside Bihar the only important wheat-growing districts are Murshidabad and Nadia. There is practically no wheat in Orissa.

2. *Character of the season.*—The season on the whole has been favourable. In certain districts, however, the crop suffered from the failure of the *hathiya* rains in October, but in the week just closed rain was fairly general in the Presidency and Burdwan Divisions with scattered showers in Bihar. In the important wheat-growing district of Bhagalpur there was a severe hail storm on the 22nd but the extent of the damage has not yet been reported.

3. *Area sown.*—The total normal area under wheat in the Province now stands at 1,350,400 acres. The actual area sown this year is 1,256,000 acres against 1,324,800 acres of last year. The sowing took place on the whole at the normal time.

Outturn.—From the Appendix it will appear that a normal outturn is expected in three of the minor districts only (Purnea, Cuttack and Balasore); five districts return between 90 and 99 per cent.; nine districts between 80 and 89 per cent.; four between 70 and 79; while six districts return below 70 per cent. According to the estimate of the District Officers, the outturn for the whole Province works out to 83 per cent. of a normal crop.

C. E. A. W. OLDHAM,

*Officer on special duty in connection with
the Dept. of Agriculture, Bengal.*

Jessore ..	1,872,000	1,191,000	1,700	1,200	1,000	80	52	The date of sowing was normal. The decrease in the area is due to the revision of the normal and estimated areas in Bongaon. The slight increase in the output needs no explanation.

General Summary.—Rain is reported from every district except Champaran, Purnea, Darjeeling and Cuttack. The fall was light in the Bhagalpur and Orissa Divisions and generally moderate in the rest. More rain is needed in some of the Bihar districts, viz., Champaran, Darbhanga and Bhagalpur. Hailstorms are reported from the districts of Patna, Sambalpur and Palamanu, and the standing *rabi* crops in Palamanu have suffered to a certain extent. An area of about 18 square miles in the Samastipur subdivision of the Darbhanga district has been seriously affected by the hailstorm of the 22nd January last. Prospects of *rabi* crops are otherwise good. There is cattle-disease in six districts. Fodder is reported to be insufficient in parts of Darbhanga and Jessore. Water-supply is generally sufficient. The price of common rice has risen in six districts and has fallen in eleven; it is high in most of the districts of the Burdwan and Presidency Divisions and also in Monghyr and Purnea.

The mean pressure, temperature, &c., are deduced from the traces of the Barograph and Thermograph, and from eye observations.

The maximum and minimum temperatures are obtained from self-registering thermometers. All the thermometers are verified, and the readings have been corrected to a standard constructed and verified at the Alipore Observatory. They are exposed under a thatched shed open at the sides, and are suspended four feet above the ground.

The barometer readings are corrected to those of the standard, Newman's No. 86, formerly at the Surveyor-General's Office.

The hygrometric elements are obtained from Tables III, IV, and V of the official tables computed in the Meteorological Office, and based on Regnault's modifications of August's formula.

The directions and the movement of the wind are taken from the trace of a Beckley's anemograph.

The mouth of the rain-gauge is one foot above the ground. Rainfall reported on any day is for 24 hours preceding 8 A.M. of that day.

c, overcast; p, passing showers; d, dew.

COTTON CROPS OF BENGAL, FEBRUARY, 1906.

THE following note is published for general information.

R. W. CARLYLE,

Offg. Chief Secy. to the Govt. of Bengal.

The 20th February 1906.

DEPARTMENT OF AGRICULTURE, BENGAL.

REPORT ON THE COTTON CROPS OF BENGAL, FEBRUARY, 1906.

[On an average of the five years ending 1903-1904 the area under cotton crops in the territory to which this forecast relates has represented some 1·08 per cent. of the total area under cotton crops in British India.]

Explanatory.—Four forecasts of cotton are to be issued by this Department at equal intervals of two months, viz., before the 15th of August, October, December and February, the first two dealing with estimates of area sown and the

general condition of the crop, and the other two with revised estimates of area sown, together with an estimate of the probable outturn.

Since the issue of the October forecast, the important cotton district of the Chittagong Hill Tracts has been transferred to the new Province of Eastern Bengal and Assam, and Sambalpur has been added to this Province.

Character of the season.—Early cotton is grown in the Sonthal Parganas, Sambalpur, Manbhum, Singhbhum and Angul. Weather conditions were generally favourable in the early part of the season, but there was some damage in the Sonthal Parganas and Manbhum by excessive rain in September.

In respect of late cotton, the most important districts are Saran, Muzaffarpur and Darbhanga. This crop is sown partly at the beginning, and partly at the end of the rains. In the districts where it is sown at the beginning of the monsoon, excessive rain and floods caused damage to the crop.

Area sown.—The area sown with early cotton this year was 36,504 acres, and that sown with late cotton, 36,356 acres.

Outturn.—According to the revised returns the outturn of early cotton is estimated at 5,680 bales while the outturn of late cotton is estimated as 11,221 bales (one bale=400lbs.) Adding 5 per cent. to the above figures for cotton grown in the Native States, for which statistics are not available, the total estimates for early and late cotton come, respectively, to 5,964 and 11,782 bales.

General Summary.—Rain was general and for the most part heavy all over the Province except in Saran, Champaran, Muzaffarpur and Darbhanga, where the fall was light to moderate. The heavy rain of the week has adversely affected the *rabi* crops to some extent, especially the pulses that are in pod. An area of about 30 square miles in the district of Monghyr was affected by the hailstorm of the 22nd January last, and the loss of the *rabi* crops in this area is estimated at about 46 per cent. Hail is also reported this week from Sambalpur and Palamanu. Prospects of *rabi* crops are otherwise fair. Cattle-disease is reported from seven districts. Fodder is still insufficient in parts of the Darbhanga district. Water-supply is plentiful. The price of common rice has risen in ten districts and has fallen in two. It continues high in most of the districts of the Burdwan and Presidency Divisions and also in Monghyr and Purnea.

SUMMARY OF THE METEOROLOGICAL AND RAINFALL OBSERVATIONS TAKEN IN BENGAL, AND OF THE METEOROLOGICAL OBSERVATIONS TAKEN IN EASTERN BENGAL AND ASSAM, FOR THE MONTH OF JANUARY, 1906.

THE first month of the New Year was, like its predecessors of the present cold weather, of a very ordinary type. The most remarkable feature of the month was its considerable coolness, due during the first twenty days of the month to a strong monsoon bringing down cold air from the north, and during the last ten days to excessive precipitation and heavy clouds which, while preventing the nights cooling down as much as they otherwise would, even more acted as a protection from the sun's rays during the day.

The light rain which prevailed in the south of Bengal during the last few days of December ended with the year 1905, and New Year's day 1906 was bright and dry with the barometer at its proper height and a north-east to south-west pressure gradient only a shade steeper than is usual for New Year's day in Bengal and the Bay of Bengal, and temperature a trifle cooler than normal. This perfectly typical descent of cool air from the Himalayas and over Central India was maintained with only slightly increasing force on the 3rd, 4th and 5th, with diminishing force on the 6th and 7th, and disappearing altogether on the 8th and 9th. The variation of temperature from the normal synchronised closely with these changes in the pressure distribution, the maximum deficiency (viz., 6° in South-West Bengal) falling on the 6th. From the 10th to the 17th the centre of the anti-cyclonic air movement was shifted westwards over Central India, so that the winds, though of less force, were enabled to preserve a rather more than ordinary coolness in virtue of their more northerly direction. On the 18th, 19th, and 20th the pressure gradient flattened out and the monsoon diminished to its ordinary strength and temperature gradually rose to the normal for the season. On the 21st a shallow depression appeared over the south of the United Provinces and gave very general and heavy rain over Bihar, North Bengal, South-West Bengal, Chota Nagpur and Orissa; and extending into the parts of Bengal and Assam on the next two days, while the wind going round to the south and south-west, sent the mean temperature up to just above normal, and the heavy overclouding of the sky kept the night temperature as much as 10° or 11° above the normal minimum. On the 23rd normal barometric conditions were established over the Bay, and on the 24th the monsoon pressure gradient was even a little stronger than usual; but before the temperature had time to fall more than about 1° below normal a very shallow depression appeared over Central India on the 25th, and by giving the winds at the head of the Bay a southerly component caused the temperature to rise again to 4° or 5° above normal, while giving a pretty general precipitation in Chota Nagpur and more scattered showers in the adjoining western parts of Bengal on the 26th, 27th and 28th. On the 28th the mean temperature was as much as 8° above normal. On the 29th and 30th the pressure gradient was steep from north-west to south-east, but its component at right angles was practically zero or contrary in sign to that proper to a north-east monsoon. On the 30th and 31st there occurred one of those mysterious see-saw movements of the barometer, which on the former day fell through one-fifth of an inch along the base of the Himalayas and on the second day more than recovered its former height. The only other noticeable phenomenon associated with this oscillation of the barometer was a sudden fall of temperature which is no doubt sufficiently explained by the rapid evaporation of the clouds owing to the sudden compression, and the simultaneous shifting round of the direction of the winds.

Summary of Pressure.—All these barometric oscillations were so symmetrically above and below the mean that the integrated average pressure for the month scarcely varies at all from the normal, though it was on the whole just a trace above normal over the Province and a little below over the Bay, indicating a slightly stronger than ordinary north-east monsoon during the month.

From the following table it will be seen that the vertical pressure anomaly between Darjeeling and Calcutta which, after oscillating backwards and forwards during last year's rains, had disappeared in October and become markedly negative during the first two months of the present cold weather, has become slightly positive during January, thereby indicating that the large rainfall of the month was not connected with an excessive amount of moisture in the upper atmospheric strata:—

Summary of Temperature.—The month of January 1906 was a little cooler than January has usually been in former years all over Bengal, Bihar, Chota Nagpur, and the northern half of Orissa, while its southern half was just a little warmer than usual. The highest temperature recorded was $89^{\circ}\cdot4$ at Cuttack and the lowest in the Plains $40^{\circ}\cdot1$ at Motihari. At Calcutta the extreme limits of temperature were $81^{\circ}\cdot9$ and $44^{\circ}\cdot4$.

Summary of Rainfall.—The total rainfall for the month was in large excess above the normal average (of 100 to 270 per cent.) in every division of the Province, except in Bihar, where it was 19 per cent. less than the normal average.

The following table gives the summary of the temperature of each of the seven Meteorological Divisions of the Provinces of Bengal and of Eastern Bengal and Assam, and rainfall data of each of the four meteorological divisions of the Province of Bengal for the month of January 1906:—

The mean pressure, temperature, &c., are deduced from the traces of the Barograph and Thermograph, and from eye observations.

The maximum and minimum temperatures are obtained from self-registering thermometers. All the thermometers are verified, and the readings have been corrected to a standard constructed and verified at the Kew Observatory. They are exposed under a thatched shed open at the sides, and are suspended four feet above the ground.

The barometer readings are corrected to those of the standard, Newman's No. 86, formerly at the Surveyor-General's Office.

The hygrometric elements are obtained from Tables III, IV, and V of the official tables compiled in the Meteorological Office, and based on Regnault's modifications of August's formula.

The directions and the movement of the wind are taken from the trace of a Beckler's anemograph.

The month of the rain-gauge is one foot above the ground. Rainfall reported on any day is for 24 hours preceding 8 A.M. of that day.

* In addition to this area, 540,000 acres are efficiently protected by the flood banks of the Orissa Canals, the total length of which is 298 miles 4,676 feet.

† Inclusive of 1,717 feet of spur embankments Panar river. The length in 1903-1904 was 1,761 feet.

There has been an addition of 5 miles 2,227 feet in the length of the class A embankments in Orissa, mainly due to the restoration to the schedule of certain embankments which had been temporarily removed from it. There has been no alteration in the other classes.

3. *Floods.* During the year the floods in most of the rivers in the Orissa Circle were fairly high. There was a moderately high flood of short duration in the Mahanadi river and its branches. A noticeable feature of the flood was that the gauges along the Bhargovi branch in the Puri district recorded the highest known readings. This was due partly to the closing of the Adlabad breach and also to the occurrence of comparatively few breaches in the

Haldi rose to within 3·23 feet of the maximum for that river. In the Gandak Circle the floods were of an ordinary nature. The Gandak river rose on 24th June to 230·40 at Siswa against 242·40, the highest recorded flood level. The flood in the Ganges as recorded in connection with the Buzitpur embankment was 3·05 higher than that of the previous year, and 3·09 lower than the flood recorded in 1879.

There were heavy floods in most of the rivers in the South-Western Circle and the embankments were damaged to a certain extent. The highest flood of the year in the Cossye and Selye rivers occurred on the 8th and 9th July. It was of moderate height. The flood in the Hooghly river was unusually high. The gauge at Uluberia read 15·80 on 13th August, against a previous maximum of 15·50. The canal terminus was slightly affected and had to be strengthened by stone pitching. There were altogether five floods in the Damodar river between July and September 1904, of which the highest was on the 8th July, when the water at the Edilpur gauge was only 9 inches lower than during the very high flood of 1902. Three floods occurred in the Ajai river, of which the highest was on the 23rd July 1904, being 7 feet 3 inches lower than the highest recorded level of 20 feet 9 inches in 1899. The river protective works were slightly damaged. The Bhagirathi river was also in high flood. On the 26th August the Berhampur gauge stood at 63·75, being 0·98 below the maximum flood level of 1890. The floods in the rivers in the Malda, Purnea, Bogra, Pabna and Bhagalpur districts were of ordinary character and caused no injury to the embankments.

4. *Surveys and investigations.*—In the Orissa Circle an investigation was made in the Puri district, with respect to the utility of the existing sluices in the embankments and to ascertain where additional sluices might with advantage be provided. In the South-Western Circle surveys for retired lines at Magra and Raipur and a survey of the right bank of the Hooghly from Uluberia to Alipore were completed during the year. Surveys of the creek and some of the main channels in connection with the Magra Hât drainage scheme were completed. Surveys were also made of the village sites in the country which is now exposed to flood in consequence of the alterations in the line of embankments at Laltakuri in the Murshidabad district. In the Gandak Circle surveys in connection with three retired lines proposed for the Saran embankment were carried out.

5. *Original works.*—The outlay of the year (without charges for establishment) under this head amounts to Rs. 38,338 distributed over the different classes of embankments as under :—

				1904-1905.	1903-1904.
				Rs.	Rs.
Class A	20 560	17,649
" B	16,674	25,110
" C	Nil	Nil
" D	1,104	Nil
Total				38,338	43,459

The more important works are briefly noted.

In the Orissa Circle a paved escape on the left bank of the Bhurgovi river was completed and two similar escapes on the Kushbhadra river were commenced. A short length of new embankment on the left bank of the Byturni at Anandpur was completed.

In the South-Western Circle Rs. 3,913 were expended on the remodelling of the Mohanpur-Kharagpur road to serve as a flood bank of the Cossye river near Midnapore. This work was completed during the year at a total cost of Rs. 48,405. Half the cost has been debited to the Bengal-Nagpur Railway. The Inspection bungalow at Edilpur on the Damodar was enlarged at a cost of Rs. 1,631.

A sum of Rs. 8,076 was also expended in the Nadia Rivers Division principally on works in connection with the Kalukhali sluice and the Bhagwan-gola retired line, the outlay on the latter being Rs. 4,670.

In the Gandak Circle the construction of the drainage sluice in the 6th mile of the Buzitpur embankment was nearly completed. A new sluice was constructed in the 27th mile of the Tiberat embankment at cost of Rs. 1,104 paid

6. *Ordinary repairs.*—The expenditure on repairs (without book charges for establishment and tools and plant) aggregated Rs. 3,96,147, which is distributed under the different classes of embankments as follows:—

				1904-1905.	1903-1904.
				Rs.	Rs.
Class A	26,689	35,437
" B	2,36,572	2,37,231
" C	1,27,828	65,106
" D	5,058	6,057
Total				3,96,147	3,43,831

The expenditure during the year on repairs to the Orissa embankments was the smallest of the quinquennial period ending March 1905. The total cost of repairs to those of the schedule D embankments (class B) in the Midnapore district which are in the Orissa Circle was Rs. 36,916, of which Rs. 31,770 were expended on repair and river protective works; Rs. 5,146 on construction of retired lines, and Rs. 3,569 in protecting the Doro embankment near Luff Point from the erosion of the Hooghly river.

In the South-Western Circle the expenditure on ordinary repairs to schedule D and other embankments was Rs. 1,02,629 against Rs. 1,27,382 in the previous year. In the Burdwan and 24-Parganas districts there was a reduction in expenditure of Rs. 31,565, while in the Hooghly, Midnapore and Murshidabad districts the charge for maintenance was Rs. 7,213 in excess of the preceding year.

The heavy expenditure in the Hooghly district was due to special repairs and extension of the rubble stone revetments on the left bank of the Rupnarain river. The excess in the Midnapore district was mainly due to the charges for similar work carried out on the Rupnarain right bank. The somewhat heavy expenditure in the Murshidabad district was due to extensive repairs to the Bhagirathi embankment.

On (class C) takavi embankments under contract in the Midnapore, Muzaffarpur, Saran and Champaran districts a sum of Rs. 1,27,828 was expended during the year, as compared with the contract provision of Rs. 1,05,070. The outlay incurred on the maintenance of the Gandak embankments was Rs. 67,525, against Rs. 37,769 in the preceding year. Of this amount Rs. 43,317 were spent on special work done in raising the embankments. The expenditure on repairs to the Midnapore embankments was Rs. 60,303, against Rs. 27,295 in the previous year. The large outlay was partly due to the construction of retired lines and partly to special repairs to make good damage from flood.

On (class D) takavi embankments the total outlay incurred on repairs was Rs. 5,058, against Rs. 6,057 in the previous year.

7. *Breaches.*—In the Orissa Circle a large breach occurred in the 9th mile of the Kushbhadra river right bank, while three breaches occurred in the Bhargovi embankment. No damage was, however, done to the crops. On the contrary the inundation is reported to have been on the whole beneficial, as the local rainfall was short at the time. There were also four breaches in the Jamkunda embankment and one in the Darboree embankment. These were speedily closed and the crops were not damaged. The expenditure during the year for filling breaches was Rs. 3,037, against Rs. 2,227 in the previous year. In the South-Western Circle the total expenditure incurred in closing breaches and in making good damage caused by flood was Rs. 32,693, against Rs. 1,209 in the previous year. The small outlay during the year 1903-1904 was due to the absence of high floods in the Hooghly, Midnapore and 24-Parganas districts. During the year under review the expenditure in these districts amounted to Rs. 18,129. In the Burdwan district a sum of Rs. 14,198 was expended, against Rs. 1,424 in the previous year. There were no breaches in the embankments in the Gandak, Northern and Bhagalpur Circles.

8. *Retired lines.*—In the Orissa Circle the amount expended in constructing retired lines of embankments, including in this head slope cutting, which is an alternative measure, was Rs. 5,064, against Rs. 11,699 in the previous year. In the South-Western Circle the cost of constructing retired lines in the Burdwan, Hooghly, Midnapore, Murshidabad and the 24-Parganas districts was Rs. 63,165, against Rs. 66,120 in the previous year. In the Gandak Circle three retired lines were constructed in the Saran embankment and one in the 30th mile of the Tirthat embankment. No retired lines were constructed in the Northern and Bhagalpur Circles.

9. *River Protective works.*—In the Orissa Circle the total outlay incurred on repairs to the revetment and river protective works was Rs. 675, against Rs. 1,305 in the preceding year. In the Gandak Circle the existing spurs at 27th and 44th miles of the Saran embankment were repaired and nine new spurs were constructed at the former and three at the latter place. The old spurs in the Tirhut embankment were also repaired. Protective works were carried out opposite 58th mile on the Champaran embankment to prevent erosion.

10. *Financial.*—The actual outlay during the year on the Orissa embankments (class A) maintained as agricultural works exclusive of charges for establishment and tools and plant was Rs. 26,689, against Rs. 35,437 in the previous year, the average rate per mile being Rs. 52. The expenditure on class B Government embankments was Rs. 2,36,572, against Rs. 2,37,231 in the previous year, the average rate being Rs. 217, against Rs. 218 in 1903-1904.

Government has contracted to maintain certain embankments on behalf of the persons benefited at a fixed annual charge in the districts of Saran, Champaran, Muzaffarpur and Midnapore. The following statement shows the expenditure incurred in these embankments as compared with the contract payments:—

NOTE.—The figures in this table under column "Maintenance charge" represent the cash outlay only on maintenance and repair without any book charges for establishment or tools and plant.

The contract for the maintenance of the Midnapore takavi embankments in charge of the Executive Engineer, Cossye Division, has been renewed for 15 years from 1st April 1904 at Rs. 49,761 per annum, while the previous rate had been fixed for three years only from 1st April 1901 at Rs. 55,297 per annum. The contract for the maintenance of the Joki takavi embankment in the Balasore Division has also been renewed for 15 years from 1st April 1901, at an annual rate of Rs. 994. The Joki embankment lying in the Midnapore district the contract amount for its maintenance is included in that for the Midnapore takavi embankments. The contract for the maintenance of the Gandak takavi embankment in the district of Saran has been renewed for 20 years from 1st April 1900 at an annual rate of Rs. 23,900. The rate for the maintenance of the Gandak takavi embankments in the districts of Champaran and Muzaffarpur has been fixed for 20 years, from 1st April 1903, at Rs. 20,000 and Rs. 10,415 respectively per annum.

11. *Works undertaken under the provisions of the Drainage Act VI (B.C.) of 1880.*—The Dankuni, Howrah, Rajapore and Burajalla drainage works in the Hooghly district in charge of the Executive Engineer, Northern Drainage and Embankment Division were maintained in good order during the year. The cost of their maintenance compared with the previous year is shown below:—

	1903-1904.		1904-1905.		Annual amount fixed for maintenance.
	Rs.	Rs.	Rs.	Rs.	Rs.
Dankuni	7,170	1,119	4,300	...

Rajapore
Burajalla	8,760	7,828	5,000	...
Total	17,388	12,018	11,300	...

The sluices of the drainage schemes were used during the year both for irrigation and drainage purposes, and fairly good crops were obtained from the whole of the area assessed. The income derived from land rent, fisheries,

rolls on boats and other sources was credited to the Civil Department direct, only petty miscellaneous receipts amounting to Rs. 419 were realized by this Department.

12. *Works undertaken under the provisions of the Sanitary Drainage Act VIII (B. C.) of 1895.*—The only work taken up under the Sanitary Drainage Act is the Magra Hât drainage scheme in the 24-Parganas district. It is designed to drain the swamps around Magra Hât and in the central portion of the tracts enclosed by the 24-Parganas embankments. The swamps are mainly those along the Kaorapokhar khal near Hotar, those connected with the Surjipur sluice, those at Joynagar and along the Srichandra and Sangrampur khals, as well as north of the railway near Sangrampur and at Dhosa and Habka. The rough estimates amounting to Rs. 17,39,000 have been approved by the Municipal Department of this Government. The Government contribution for the scheme is Rs. 5,00,000, and the balance will be advanced by Government as a loan to the District Board and recovered from the persons whose lands will be benefited. The allotment for the year 1904-1905 was Rs. 1,25,000, and a sum of Rs. 93,133 was expended on the following works:—

	Ra.
Re-excavation of Surjipur khal, including cross dam at the mouth of the khal	10,474
Excavating the diversion channel for the main sluice at Diamond Harbour and excavation for the sluice and value of bricks supplied	80,703
Work establishment, survey and contingencies	1,956
Total ...	93,133

The excavation of the Surjipur khal made it possible to drain out most of the water from the swamps round Surjipur and Magra Hât after the rains into the Peali river. In the diversion channel at Diamond Harbour, about 30 lakhs of earthwork were completed, and excavation for the main sluice started. The manufacture of bricks for Diamond Harbour and Peali sluices was commenced and surveys of the creek and some other main channels were completed.

13. *Drainage works carried out at the cost of Government but not under the provisions of the Drainage Act.* There was no expenditure on original works during the year. The outlay incurred on maintenance and repairs of the works is given below:—

On the Bullee Bhil, South-Western Circle (Rs. 6,044 were expended on repairing and maintaining the escape weirs, sluices, regulators, drainage channels, dividing embankments and plantation and in clearing silt from Kojjuri and Boyarghatta channels. In the Balasore Division the Balighai main and branch drains were kept open to traffic throughout the year. The cost of maintenance amounted to Rs. 1,219, including cost of repairs to inspection bungalows. The outer bund of the Surpai sluice channel was cut for drainage purposes at a cost of Rs. 793; and for silt clearance of the khas tahsil khals in charge of this Department Rs. 11,934 were expended during the year. Ten khas tahsil khals hitherto maintained by the Contai Khas Tahsil Department for drainage purposes were cleared from silt by this Department with funds provided from the khas mahal management grant. The amount expended during the year was Rs. 5,838. These ten khals have been placed in charge of this Department for inspection purposes only.

14. *Drainage works carried out under the provisions of the Embankment Act II (B. C.) of 1882.*—The amounts expended are shown below:—

Original works.—The embankment on the left bank of the Peali river with two sluices referred to in the previous year was nearly completed during the year. The expenditure of the year was Rs. 58,351. A sluice at Dhutkhali in the 108th mile of the 24-Parganas embankment was under construction during the year. The expenditure incurred on the work was Rs. 5,824, against the sanctioned estimate for Rs. 19,098. On the silt clearance of the Kunjapore and other subsidiary khals in the Midnapore district, Rs. 15,560 were expended to end of the year, against the estimated amount of Rs. 20,172. The expenditure of the year was Rs. 11,908. The construction of a sluice in the 23rd mile of the Hujili Tidal Canal, Range II, in progress from last year, was completed at a total cost of Rs. 549. The construction of two sluices was undertaken on the parties depositing the estimated cost Rs. 1,667 and Rs. 1,891, viz., a sluice

in the Kalinagar Hassia embankment (schedule D, No. 45) and a sluice in the 12th mile of the Jalpai embankment (schedule D, No. 53).

Maintenance and Repairs.—The Oharial khal drainage sluice and 15 other sluices in the schedule D embankments in the 24-Parganas district were efficiently maintained during the year at an aggregate cost of Rs. 3,878. The Kumrool sluice in the 53rd mile of the Damodar left embankment (schedule D, No. 82) in the Hooghly district was repaired and maintained during the year at a cost of Rs. 341.

Order.—Ordered that a copy of the Resolution and of its appendices (A and B) be published in the supplement to the *Calcutta Gazette*, and submitted to the Government of India, Public Works Department, for information.

Ordered also that copies of the Resolution and of its appendices (A and B) be forwarded to the Revenue and Financial Departments of this Government; the Secretary to the Board of Revenue, L. P.; the Commissioners of the Presidency, Burdwan, Patna, Bhagalpur, Chota Nagpur and Orissa Divisions; the Director-General of Statistics; the Superintending Engineers of the Orissa, South-Western, Sone, Gandak and Northern Circles; the Examiner, Public Works accounts, Bengal, for information.

Ordered further that copies of the Resolution and of its appendices be forwarded to the Government of Eastern Bengal and Assam, Public Works Department, for information and communication to the officers concerned.

By order of the Lieutenant-Governor of Bengal,

W. A. INGLIS,

Secretary to the Government of Bengal.

(a) The difference of Rs. 4 in column 2 as compared with the last year's return is due to the increase of Rs. 4 in the embankment cess demand during the year owing to the increase in the land revenue fairs of certain estates by re-ettlement.

(b) The difference of Rs. 3 in column 3 is due to the correction made in assessment of one estate.

(c) The decrease of Rs. 2 is due to the transfer from advance payment to the arrear demand.

(d) The difference of Rs. 11 is due to the fact that the balance at the close of the year 1903-1904 actually amounted to Rs. 5,515-10, which according to rule was shown Rs. 5,516. Out of this amount a sum of Rs. 10-2-3 was adjusted during the year under review from the excess payment of the previous year of the partition of an estate.

(e) This balance has been arrived at by deducting Rs. 744, due from Government on account of khas mahals benefited by the embankment.

PRELIMINARY FORECAST OF THE OILSEED CROPS OF BENGAL, 1905-1906.

The following is published for general information.

R. W. CARLYLE,

Offg. Chief Secy. to the Govt. of Bengal.

The 27th February 1906.

DEPARTMENT OF AGRICULTURE, BENGAL.

Preliminary forecast of the Oilseed crops of Bengal, 1905-06.

[On an average of the five years ending 1903-04 the areas under linseed, rape and mustard and *til* in the territory to which this forecast relates have represented some 29·7, 22·4 and 6·2 per cent., respectively of the total area under these crops in British India.]

Explanatory.—The forecast furnishes preliminary estimates of area and outturn of different kinds of oilseeds, both *bhadosi* and *rabi*, grown in Bengal as now constituted, i.e., including Sambalpur and excluding the 14 districts recently transferred to the new Province of Eastern Bengal and Assam.

The chief oilseed crops are mustard (white and brown), rape, sesamum or *til*, linseed, castor, Niger oilseed (*Sirguja*) and *eruca sativa* (*taramani*). Mustard and rape occupy about 34 per cent. of the total area under oilseeds and linseed occupies about 33 per cent. The bulk of the mustard and rape is cultivated in the district of Purnea and the Sonthal Parganas. Linseed, which does better in the harder old alluvium, flourishes best in Darbhanga, Saran, Champaran and Gaya. *Til* or *ginjelly* is grown chiefly in Midnapore, Jessore, Angul, Sambalpur and Hazaribagh.

2. **Character of the season.**—Complaint has been general of want of moisture at the sowing time, and of rain holding off at the period of early growth of the crop. In October the rainfall was light and in November there was hardly any rainfall. Towards the end of December and in January rainfall was general, and it has improved the prospects. Injury done by insect-pest is reported only from Gaya. On the whole, the prospects which seemed somewhat gloomy early in the season, are favourable.

3. **Area sown.**—The total normal area under different kinds of oilseeds is estimated as 2,363,600 acres. The actual area sown this year is 2,165,900 acres against 2,243,600 acres sown last year; the sowings were made at the usual time but the area sown was less owing to the unfavourable character of the season.

4. **Outturn.**—From the appendix it will be seen that only one district, viz., Balasore, has reported a normal crop, eight districts 90 to 92 per cent., seven other districts 80 to 89 per cent., nine districts 70 to 79 per cent., five 60 to 69 per cent., and the remaining three districts 50 per cent. and less. The district estimates work up to a total outturn of 80 per cent. of a normal crop, but owing to the improvement that has taken place since the middle of December, I am inclined to raise the estimate to 85 per cent.

C. E. A. W. OLDHAM,

The mean pressure, temperature, &c., are deduced from the traces of the Barograph and Thermograph, and from eye observations.

The maximum and minimum temperatures are obtained from self-registering thermometers. All the thermometers are verified, and the readings have been corrected to a standard constructed and verified at the Kew Observatory. They are exposed under a thatched shed open at the sides, and are suspended four feet above the ground.

The barometer readings are corrected to those of the standard, Newman's No. 86, formerly at the Surveyor-General's Office.

The hygrometric elements are obtained from Tables III, IV, and V of the official tables computed in the Meteorological Office, and based on Regnault's modifications of August's formula.

The directions and the movement of the wind are taken from the trace of a Beckley's anemograph.

The mouth of the rain-gauge is one foot above the ground. Rainfall reported on any day is for 24 hours preceding 8 A.M. of that day.

o, overcast; g, gloomy; p, passing temporary showers; d, drizzling rain; a, dew.
